

## VIRGO 2013 NEWSLETTER Compliments of Alice DeVille

September is the last month of the year where we officially celebrate a summer holiday. While Virgo's turf begins in August it covers a big chunk of September. Vacationers who seek quiet retreats away from the maddening crowds and the unsettled new traffic patterns from the back-to-school bunch revel in the opportunities a late season getaway allows. Virgo loves to organize and no doubt has a plan to keep transitions smooth. As the sign comes to an end we begin to see subtle scenes that unfolding autumn brings to community landscapes. You can count on Virgo celebrants to keep their calendars up to date on what needs work. Why not extend them an invitation for a favorite meal and a gorgeous dessert to honor their place in your life.

**ANNOUNCEMENTS: Newsletter:** Some readers have asked about the format I began using this year. I am going by Sun Sign dates so that instead of naming the newsletter by the month, I cover by the sign and all important dates during that 30-31 day period.

**Security:** Watch for messages from individuals inviting you to be a [Facebook](#) friend; some may actually appear to be contacts you know. Instead of following the clicks, contact the inviter directly to find out if that individual has actually sent the invitation. Apply the same precautions to [LinkedIn](#) invitations. Do not agree to make a connection with someone you don't know; just delete the message and don't click on links. If you are sending a long e-mail and it has "*check out these pictures*" or similar wording in the subject line your SPAM filter will flag it as junk; some will say that others are talking about you - just send to SPAM. Winner of the July client drawing was

LW; August's drawing will be for a \$10 gift certificate to apply to your next consultation. All clients who book a one hour or more session during September will be entered into the September drawing. **WISHING THE BEST** of joy and happiness to F and S on your engagement announcement.

## **VIRGO'S BIRTHDAY HIGHLIGHTS**

**Happy Birthday, Virgo!** Your intelligent Sun Sign rules the 6<sup>th</sup> House of work, daily environments and routines, health, pets, colleagues, alternative medicine, workouts, nutrition, certain medications, herbs, spices, your kitchen's utility, pets the size of dogs or smaller, vitamins, efficiency of output, body workers and assimilation. Mercury rules your mentally-driven sign and many of you seek employment in communication-oriented careers, fact-finding, libraries, patient advocacy, publications, massage, and editing, problem-solving or administrative roles. Virgos take a hands-on approach to whatever needs attention and thrive systems that keep them organized and cross-referenced. Some of them make good space organizers or Feng Shui consultants; others prefer the healing field, massage and veterinary medicine. Those of you who love to cook like state-of-the art equipment and some of you excel as the Top Toque in your place of employment or domestic turf. Yours is a sign that moves through processes and does it well. Virgo rules the bowels and intestines; digestion problems bother some of you, while others display signs of hypochondria, vitamin overdose or germ phobia or the extreme end of the spectrum of messiness. This year the Sun enters your sign on August 22 at 7:02 PM EDT and leaves on September 22 at 4:45 PM EDT.

Your birthday year starts out with **Jupiter in Cancer** in your solar 11<sup>th</sup> house of groups, friendships, organizations, associations and clubs, holding an office, employer's resources and humanitarian pursuits through July 2014. Your social life will get a boost allowing you to enjoy the new connections and recharge your batteries. This position speaks to networking, often for the sake of career advancement and may bring extra responsibilities which you enjoy because it puts you in the know of new developments. Be aware of just how much you can do and consider delegating. **Saturn in Scorpio plays a complimentary role in your life all year in your solar 3<sup>rd</sup> House** of communications, equipment, transportation, community, cousins, mental outlook, siblings, neighbors and education. Those of you born between August 31 and September 12 have contact with Saturn this year; especially strong are the vibes for those born August 27 - September 3; this fall those born after September 3 make contact with Saturn for up to two weeks in October-December and again in 2014 depending upon the planetary placements in your natal chart. Connections of all types are important to you in the year ahead; take advantage of new proposals, educational opportunities, travel, and challenging projects; stay patient and persistence pays off well in your next cycle. If you have relationship issues to heal with family or close ties, this is the time to do it. **Uranus in Aries** contacts Virgos born August 27-September 5 in your solar 8<sup>th</sup> House of debt, mortgages, investments, wills, taxes, lenders, and joint financial holdings or inheritance. Financial conditions change for good and due to unplanned circumstances so plan ahead and keep a rainy day fund. For some of you, a partner's money changes; others take on mortgage debt or sell a property; some inherit cash, heirlooms or property. A plan to pay off debt gets the seal of approval and your freedom. Some of you could settle a pending lawsuit. Just when you think you have figured out the next steps, Uranus makes a surprising move, so expect the

unexpected and breathe through it. **Neptune in Pisces contacts your Virgo Sun via opposition through the end of the year in your solar 7<sup>th</sup> House of business, personal, marriage and roommate partnerships especially if you were born August 23-27.** Love is in the air and you keep it alive either because you are in the perfect relationship or you meet someone new and the flame of passion takes off. For unknown relationships be sure that Neptune is not masking a totally different scenario. Yes, this mystical planet is known for clouding reality in the name of love or opportunity. In all transactions check the facts, clarify references and ask questions of principals. Stay away from people who have colds, coughs, and viruses; eat a healthy diet and engage in daily exercise and you will stay in balance. Enjoy the Neptune-Sun connection for its inspiring and uplifting appeal; if you are a writer, your wordsmithing could be magic. Neptune in Pisces remains there until 2025 influencing your solar 7<sup>th</sup> House. **Pluto in Capricorn in your solar 5<sup>th</sup> House of social and romantic life, sports, children, competition, risk taking, speculation, outdoor activity, and dating resonates strongly with Virgos born August 31-September 4 through the end of your birthday cycle, where becoming more confident and embracing Pluto's power dominates most of your activities for the next year.** Many of you will be pumped by energizing fitness routines, participation in sports, new learning adventures, working with children, or entrepreneurial projects, and social invitations. Some Virgos want children and could start a family or have another baby; some adopt. Enterprising Virgos invent a new device or routine or system of doing business. Challenges come from good old Uranus especially if there is a difference of opinion on how to spend your hard earned bucks. You may have already come to terms on financial difference and another opportunity comes up in November; monitor children's activities and lend an ear when your child wants to talk. Pluto crawls so it will be hanging out in your solar 5<sup>th</sup> house all year regardless of your Virgo birth date but especially when in aspect to the Suns of above dates. Enjoy this planet of personal growth for its compatibility with your sun sign and you will renew your knowledge of love and life.

**The year 2013 has five eclipses that affect you through April 2014. The influence of eclipses can last up to 12 months and can begin to show changes even before the eclipses occur. The 2013 eclipses highlight several of your solar houses: 3<sup>rd</sup>, 4<sup>th</sup>, 8<sup>th</sup>, and 9<sup>th</sup> houses. The April 25 lunar eclipse in Scorpio which fell in your solar 3<sup>rd</sup> House of communication, equipment, vehicles, transportation, neighborhood, relatives and education emphasizes the importance of learning tools and clearing your mind of worries. If making more money is one of your major goals this eclipse as well as the **Scorpio solar eclipse on November 3<sup>rd</sup>** will help you expand your skills and world view as well as open up details about your local community. Something about your community piques your interest and you could contribute to its betterment on some level. Interaction with siblings could increase in frequency; one or more of them may move. **Another eclipse that affects communication and education themes occurred on May 9 in Taurus in your solar 9<sup>th</sup> House and operates in your chart for a considerable time beyond November 3.** This eclipse is called an annular solar eclipse which emphasizes travel; no doubt you have taken short and long trips since then and will add a few more to your list before next spring. You could be reviewing material that covers medical or educational breakthroughs; work on personal research with an eye on publishing, learn about new cultures and make plans to visit foreign countries, or interact more with in-laws. Your cycle of home improvement and other domestic concerns took on new life on **May 25 with a full Moon eclipse in Sagittarius** and stays in front of you until October 18. One theme is space assessment and maybe**

you and your significant other are evaluating the need to move in 2014 away from your current location. Many of you will be organizing a family get-together or reunion when this eclipse occurs in your 4<sup>th</sup> House of home and family. Some Virgos may receive unexpected compensation through raises, bonuses, or promotions; others seek new employment while others retire; depending upon other chart aspects you could be painting or decorating your home to give it a facelift; **for others family demands intensify; visit the sick and cheer someone up.** The **last lunar eclipse of the year occurs on October 18 in Aries in your solar 8<sup>th</sup> House** of joint assets, mortgages, insurance, and inheritances. By the end of this year you will be making new financial management plans for 2014. Staying balanced will be very important in the months ahead. The problem is that your work travel or even a desire to take vacations could interfere with meeting workload deadlines; some of you will work from home or bring work home. Enjoy this cycle of activity! This section may also be valid if your Ascendant or Rising Sign is in Virgo.

**Famous Virgos include:** Adam Sandler, River Phoenix, Hugh Grant, Amy Irving, Kobe Bryant, Rick Springfield, Steve Guttenberg, Dave Chappelle, Billy Ray Cyrus, Claudia Schiffer, Sean Connery, Rupert Grint, Chad Michael Murray, Jack Black, Regis Philbin, Gene Simmons, Rachel Bilson, Elvis Costello, Macaulay Culkin, Sarah Chalke, Paul Reubens, Jason Priestly, LeAnn Rimes, David Arquette, Colin Firth, Shania Twain, Michael Jackson, Cameron Diaz, Van Morrison, Joan Jett, Faith Hill, Pink, Richard Gere, Gloria Estefan, Mark Harmon, Lily Tomlin, Keanu Reeves, Charlie Sheen, Jada Pinkett Smith, Marc Anthony, Guy Richie, Shannon Elizabeth, Ludacris, Salma Hayak, Beyonce Knowles, Raquel Welch, Rosie Perez, Rachel Hunter, Michelle Williams, Lance Armstrong, Tyler Perry, Rachel Ward, Fiona Apple, Charles Kuralt, Ryan Phillippe, Virginia Madsen, Rachel Ward, Fiona Apple, Sam Neill, Trisha Yearwood, Tommy Lee Jones, David Copperfield, Mickey Rourke, Jada Pinkett Smith, Jeremy Irons, Jimmy Fallon, Sophia Loren, Bill Murray, Luke Wilson, Faith Hill, Rose McGowan, Jason Alexander, Nicole Richie, Ricki Lake, Stephen King, Eric Stoltz and Scott Baio.

## **PLANETS POSITIONS AUGUST 22-SEPTEMBER 22**

Look at all that has happened since I published the last newsletter including some of the stories we covered since spring: Jeff Bezos bought the Washington Post, Edward Snowden relocated to Russia and his father is currently visiting; the judge in Paula Deen's lawsuit dropped the discrimination charges portion of her case; Kate and William had their baby, Prince George; Baseball and A-Rod's doping scandal continues to make headlines with no letup in sight and more prolific investigations are in the wind; the price of gold is volatile with the impact of the Uranus-Pluto square; Congress adjourned for the summer break leaving many unresolved items on the table including a resolution for the sequestration and health care; Egypt, Syria and Pakistan will continue to make headlines and deal with internal wars; and the Gulf of Mexico prepares as the Atlantic hurricane season enters its most active time period.

**Jupiter in Cancer is now in harsh aspect to Uranus and can trigger negative feelings.** It may also mean that things are going to happen so quickly you won't know what hit you. The vibes are terrific for Cancers born the first 10 days of July. **Venus in Libra in aspect to Pluto** arouses jealousy and can lead to difficult conversations for romance and financial decisions especially through the end of August. **Mars moves to Leo on August 28 and energizes the house in your chart ruled by Leo** where it

enjoys a fiery interplay with planets or positions you have in the fixed signs and other fire signs. Expect some assertive, insistent, and courageous activity especially if you have planets in Scorpio, Taurus, Leo or Aquarius; Sagittarius or Aries. **Mercury completes the Leo cycle on August 23 and makes a rapid transit of Virgo through September 10.** With Ceres in Virgo opposing Neptune in Pisces during this period, be cautious of eating contaminated food and watch shellfish, medications or food that outlasts its shelf life - purge the pantry. Depending on the rest of your chart you either run into situations that inspire you or confuse you so ask questions to get the truth. Watch August 29 for a power day or a power play. Syria looms larger as we head into fall and the uprisings in Egypt where Mars the planet of war is most prominent continue to escalate ferociously; also look at Pakistan for news of subversive dealings. **Saturn is in Scorpio and most affects Scorpions born with the Sun at 6-10 degrees as well as other water signs with those degrees.** Those with the conjunction need a medical checkup or dental work, even eye exams; others in the water signs may experience smooth dealings in important transactions, easy purchase power or positive changes in the work climate, while the other fixed signs Taurus and Leo will have to review current life conditions and make changes because they are coming regardless of what you prefer. **Uranus in Aries** visits the Sun of those born March 30-April 2 when it covers 11 and 12 degrees of Aries. Check your chart for planets in those degrees. The aspects bring to light critical areas along with surprising discoveries that open new life paths especially for those born on cited dates and the cardinal signs Capricorn, Cancer and Libra with these degrees. Pleasant encounters and smooth sailing occur for a few weeks for Leo and Sagittarius born with planets at these degrees. Uranus is in a close **square to Pluto in Capricorn** which affects world conditions through mid-2015. Recall that this connection is part of a 140-year cycle of Pluto and Uranus that has left many people feeling confused and lacking confidence. Changes in the consciousness of humanity are feeding chaos as these two planets come together exactly on 5 occasions. You have seen recent reaction to the wild stock market ride, uncertainty over financial markets in the US and abroad, frustrations over power trips and abuse of authority, unexpected weather patterns, and the crimes against consumers using Internet and telephone technology to manipulate others. The bottom line is that we will need united forces and cooperation to weather planetary and personal storms. **Neptune now retrograde resides in its natural sign Pisces at 3 degrees. Look at your chart - wherever you have Pisces at 3 degrees is part of a cycle releasing no longer needed life patterns, especially if it is on your Sun, Ascendant, a house cusp or a planet. While it is retrograde Neptune affects those born February 20-22.** How secure are you in relationships? This stationary period will uncover the truth about important facets of these relationships, so start with the relationship you have with yourself. Enjoy this fascinating period of time in terms of heightened spiritual awareness. **Retrograde Pluto moves slowly in Capricorn on the Sun of members of the sign born December 29-31 at 8-9 degrees of the sign; those with an Ascendant at that point or other key planets.** The rest of us should look at any planets or houses where we have 8-9 degrees of Capricorn, especially Cancers Aries, and Libra where challenges pop up, or Taurus and Virgo who could get a boost of confidence from the trine to the Sun or other planets. Since Mercury contacts Pluto aggressively on September 14 watch out for loose lips sinking ships and leaking more sensitive information whether on a global or a personal plane. Insensitivity toward women could also be a theme since Venus enters the picture and gets a vibe; language is going to be picked apart; expect revisions; avoid gossip. Be sure you are not "used" as an information source in situations where misquotes make news. If Pluto makes contact in

your chart, it is calling for regeneration in that house - no hanging on to a sinking ship. Pluto goes direct on September 20 at 11:29 AM EDT. Watch financial markets around that date as it affects your money, investments and resources.

## PEOPLE, PLACES AND TOPICS IN THE NEWS

Readers asked for insight into several public figures and events that have come up since I mailed the Leo newsletter. Note the emerging prominence of Cardinal sign celebrities noted in this issue - Cancer and Capricorn and those affected by current eclipses (Scorpio, Taurus, Leo and Aquarius). Taurus and Scorpio are making more headlines with the influx of eclipses in their signs, activity for the mutable signs plays out through fall of 2013 and the first eclipse in Aries occurs on October 18 which is also going to affect Libra and the other cardinal signs born near the end of their sign. Examples follow.

**Prince George Alexander Louis:** The UK's new little prince is a Cancer born with Scorpio rising, Moon in Capricorn and a chart filled with signs that resonate strongly with other members of the royal family. Earth and water signs dominate the royal family's connections. His father, Prince William is a Cancer as was his deceased grandmother, Princess Diana; his step grandmother Camilla is also a Cancer; his mother Catherine is a Capricorn with her sun on her baby's Moon; Grandfather Prince Charles is a Scorpio; uncle Prince Harry is a Virgo; Great-Grandfather Prince Philip, while a Gemini, has many Cancer and Virgo placements and Venus in Taurus on the Sun of his wife, the Queen; Great-grandmother Queen Elizabeth is a Taurus with her Sun on successor Prince Charles's natal Moon in his 10<sup>th</sup> House of authority, one of the signatures of the one who would be King while his son Prince William has Jupiter there; Queen Elizabeth has Saturn on her own MC or 10<sup>th</sup> House cusp a sign of longevity of age, rule, responsible action and she could easily beat the long tenure of her Great-Great Grandmother Queen Victoria if she stays on the throne beyond 2015. Many loving arms will embrace this new Prince yet his chart does not have the 10<sup>th</sup> House planets normally affiliated with reigning monarchs. Who knows what conditions of UK authority may prevail by the time he comes of age. For now you can be sure the press will be covering his development every step of the way.

**Jeff Bezos:** As a daily reader of The Washington Post my ears perked up when I heard that the Post was sold to America's foremost Internet entrepreneur and investor in e-commerce, Jeff Bezos. The first thing I did was take a look at his chart to see how the current planetary aspects are at work. Bezos is a Capricorn born in 1964 with the Moon in Sagittarius, a stellium of planets in Capricorn many of them including his Moon's South Node under the influence of Pluto in Capricorn, and transiting Jupiter in Cancer making aspect to his solar 6<sup>th</sup> House of work environments and contacts. Jeff also has a large stellium of Scorpio placement receiving the impact of Scorpio/Taurus eclipses that started in November 2012. With transiting Pluto in trine aspect to his natal

conjunction of Uranus and Pluto in Virgo, his role at The Post will be defined through implementation of innovative technology, presentation, readership style and sales, not surprising for the founder of the highly successful Amazon.com dynasty. His 2<sup>nd</sup> House of income and resources holds many progressed planets including Mars and the Sun in Pisces in alignment with the US progressed Sun in Pisces at the degree of the US Ceres in Pisces so these degrees and planets are making waves and it is not a coincidence that major mergers and acquisitions will be prominent leading up to major changes in late October which I will talk about in a future issue. Many individuals born the first three months of 1964 will experience major life shifts in the year ahead.

## READERS' CORNER

Almost every month I schedule consultations with clients who want advice on relocation to different parts of the country or world. Some individuals are considering a job offer, being transferred, marrying, retiring or just want a change of environment; others want to escape from a location that feels stagnant or makes life difficult. A move to a new location calls for significant analysis because every state or country has an astrology chart and the city you choose makes an impact on your natal chart. Ideally you want your move to reflect positively on your life and not every location will. This type of analysis is called Astrocartography developed by the late Jim Lewis. Countless individuals have come to me over the years with concerns about how stifled, depressed, poor, bored or lonely they felt in their current place of residence. Quite often they simply did not live in the right location whether it was close to their place of birth or they moved for work or romance or some other reason. For example, a new client called for advice some years ago and told me how disengaged she felt living in a certain location. When I analyzed her chart and looked at the current location I asked her how long she had been there and why she moved to that location. The client told me that a friend told her it was a good place to live so she sold her home, quit her job and moved there hoping to start a new life and produce lucrative income. None of that happened and she was miserable. Had she consulted an astrologer for how her planets resonated with the new longitude and latitude, she would have learned that the connections were almost non-existent. Fortunately she has since moved to a better environment. Another example relates to temporary vibes from a city you are visiting. Jim Lewis once told me at a conference that he avoided going to Milwaukee because every time he went there he was subject to an upheaval of some sort: mugged, robbed; car accident; and told me the city's Mars was directly on his Ascendant and negatively aspected his chart. If you are thinking of relocating here's a reader question that is sure to shed some light.

**Q.** You helped my mother with her relocation and move to another state and she suggested I contact you to find out if a move I am contemplating is in my best interest. She said that you gave her insight into some of the conditions she would encounter if she chose a certain cities and that it made a difference in where she finally settled when she weighed the pros and cons. I am considering accepting an accounting position with a company on the west coast. I like the area but have only been there twice for a few days at a time and confess I probably would not be thinking of moving there if I had not met someone at an annual meeting who has a home in the area and works for one of the company's partners. We are not in a relationship but I know he is not married and I would like to get to know him better. I am aware that the area I am contemplating is an expensive place to live but the position sounds

interesting enough and the salary is good. How does this area look for me astrologically and what can I expect if I move there for a new job? I will be making a decision by mid-September.

A. You are a Pisces with a highly developed analytical sense that no doubt drew you to a career in accounting. You are also highly sensitive to surroundings and could easily be drawn into situations where others need a great deal of your time and not necessarily strictly in the business world if you move to this location. I have separated interpretations of your natal planets in this location labeling them as **strong**, **moderate** or **weak**. Any number of scenarios could evolve if you move there and get involved almost immediately in some extracurricular activities either through job connections or new relationships.

The **strongest** vibe in your chart comes from Ceres, the asteroid goddess of nurturing which has much to do with taking care of people, animals, plants and causes. It is possible that a move to the area may put you in the path of someone who has children, animals that need rescuing, some type of caretaking opportunity, or reform of business practices where the people employed need nurturing or new management direction, the best stretch of a Ceres theme I can find. Others would be attracted by your warmth and caring and you could be very absorbed in taking care of their needs instead of your own or they simply keep asking for more of your time. And you know that Pisces can be very sympathetic. You have a **moderate** influence that comes from Black Moon Lilith suggesting competition in the work environment that could be very intense; may also mean competing with another for someone's affections where jealousy could be an issue. Natal Mars has **moderate** aspects as well indicating that relationships become a challenge here with lots of competition and conflicts. You did not say the name of the company but it might be one that deals with government defense contracts in some manner that would be suited to your Mars line. Situations that trigger anger may occur more often than you like and frustration may set in, particularly if the relationship with the man you mention does not pan out - and you know very little about him.

One of the tones suggests aggression is always around the corner. I also note that Mercury and the Sun are in orb but they are **weaker** in influence. Mercury helps you advance your causes and is fine for facilitating communication especially in business; networking nets good results and you emerge as a go-to person in the work environment as long as there are no blurred lines of communication and unworkable contracts. If you take the job stay away from others who want to fudge facts. The Sun also creates opportunities to advance your professional goals and you could easily move up the ladder of success. Everything to do with business would work well yet the idea of settling down and starting a family could be more difficult if that is your intent. You would have to look at ways to balance your life. The last planet of influence is natal Saturn which makes **one strong and two weak** connections to the area and calls for being patient in pursuit of your long-term goals. You won't have any trouble focusing on them but nothing will happen in a hurry. The world of contracts seems very important to your work - negotiating, preparing, executing. If you are a more easy-going type of person you may not like the new location because the job will demand so much of your time. This location seems more suited to work and career goals or even travel here for work purposes than it does for romance. The strong Ceres aspect I cited above could also pertain to pet causes of authority figures or meeting

someone who has been married and has children from a previous relationship. Would I recommend that you move here? No, I think you want more than this location will provide. Moving mainly for the opportunity to pursue someone who may or may be available seldom pans out. If you do move to the west coast I doubt it will be a long term move. I wish you success in your pending decision.

**CONFIDENTIAL TO “EXERCISER’S FRIEND”** - Yes, some Virgos do enjoy rigorous exercise routines and have phobias about what can happen to their body if they let up in intensity and may pass this message on to many of the people they know - but so do members of other signs. Since Virgo rules the 6<sup>th</sup> House the daily environment may very well include time at the gym, on the running trail or an exercise room at home. The repeated dialog you describe sounds like extreme pressure to get you to commit to a routine that you don’t feel - just say “no” without making any excuses and continue with the aerobic and treadmill routine you find comfortable.

Thank you to all who sent in questions and comments about last month’s newsletter. I’m glad you enjoyed Leo’s issue and welcome your thoughts once again.
