**Cyber security Threats:** Be sure you monitor all accounts and sources of privileged information to stay secure. As I write this, scams denoting you have accounts or credit cards that have been canceled and undeliverable orders that have been placed on hold. If you received one of these messages, don't respond. Phone the actual merchant you do business with to check the status of your account and whether they have received an order. Scammers hope you don't remember that you don't have an account or membership at the places cited. Don't open documents requesting your signature that will create loss for you if you respond. Send to SPAM or contact known vendors to report the issue. **Cyber security** is a powerful way to protect all your documents and financial holdings. Warnings come daily to put you on alert. Thieves pretend to be vendors such as Amazon, FedEx, UPS, or your I-Phone provider- do not open any attachments. When in doubt call your provider directly. Avoid paying for goods you didn't request. Check warrantees.

#### **SCORPIO'S BIRTHDAY SUMMARY**

**Happy Birthday, Scorpio!** Enjoy your birthday cycle with its passions and insights that excite your soul and stimulate your psyche. You are the 8<sup>th</sup> sign of the Zodiac, the 3<sup>rd</sup> of 4 fixed signs, and the 2<sup>nd</sup> of 3 water signs. Pluto is your natural ruler (Mars also claims original ownership) heading the deep space-oriented 8<sup>th</sup> House of other people's money, resources from joint funds or unusual places, psychological matters, mysteries, sex, death, birth, rebirth, estate matters, mortgage loans, goods of the dead, consumer debt, crimes, assets or investments as well as liabilities, the subconscious, travel between the worlds, and complex human needs. Your spirit is very intense and you show fierce determination. You can be very stubborn, and take a serious approach to obligations. When your inner knower needs it, you rise out of the ashes like the phoenix tackling issues with vigor. When the going gets tough you bounce back via rebirth to enliven your spirit. While most Scorpions are passionate about life, certain Scorpions demonstrate behavior that creates blind spots, identifies martyrdom, doubts most of what they hear, or depicts a pessimistic life view. If you are ready for a new outlook, only you can change the picture - no one else holds the cards. Work with transiting Pluto in Capricorn (now in its waning phase) to dissolve prickly moods and doubt. Your colors are dark reds, maroon, magenta, oxblood, wine, dark browns, and black. Uplifting experiences help you heal internally and aid in problem solving. Scorpio rules the private parts of the body; all 30 degrees of your sign relate to one of them! This year the Sun enters Scorpio on October 22 at 6:15 PM EDT and leaves on November 21, at 2:56 PM EST. Some material in the following section may apply to individuals with Scorpio on the Ascendant and/or other Scorpio planets, including the Moon.

**Jupiter started the year in early Taurus at 5°, in your solar 7<sup>th</sup> House of personal or business partners, collaborators, roommates, significant others, professionals like attorneys, doctors, astrologers, advisors, or open enemies.** Changes you began late last year in this house resurface and call for analysis and decisions after close examination of connections. If this Jupiter transit affected your profession via a raise or promotion, conditions, and profitable changes may have arisen in your life. You could be celebrating a successful new beginning in team harmony, or in executing plans and your excitement nets successful transactions that create much desired success. If you feel healthier, Taurus in your solar 7<sup>th</sup> house improved relationship conditions and expanded prosperity. This year Scorpions born October 23-November 13 see the most action. Those of you born November 10-22

profit through May 25, 2024, when Jupiter entered Gemini and moves on to your solar eighth house of partnership assets and debt. Planning is your thing, so take advantage of evolving enterprises. This Jupiter in Gemini cycle moves rapidly through the sign, goes retrograde on October 9, and resumes direct motion on February 4, 2025, in Gemini.

**Saturn in Pisces has occupied this sign since March 7, 2023, beginning a new 2-1/2 year cycle affecting conditions in your solar 5<sup>th</sup> House of romance, social life, children, sports, recreation, enterprise, and vacations.** Saturn visits the suns of those of you born October 25-November 9 when Saturn extends harmonious vibrations from this Pisces transit. **Saturn in Pisces now occupies your solar 5<sup>th</sup> house of romance, children, sports, recreation, enterprise, and vacations.** Pisces, like Scorpio, is a water sign and Saturn here could affect the flow of your plans, giving you a chance to adjust them to maximize entrepreneurship and pleasure. Saturn's direct motion provides the best results for executing ongoing plans. The connections you have with children, romantic, and social relationships reflect the way you manage responsibility. Saturn's retrograde period started on June 29 and ends on November 15 allowing you time to perfect plans, study timing, and adjust your vision. With Saturn, Neptune, and an eclipse on September 17, the 5<sup>th</sup> house is intensely active through next summer. You'll be juggling priorities related to this house. The added responsibility calls for careful planning with children, teams, and speculation. Stay true to your commitments. **Uranus in Taurus travels through your Solar 7<sup>th</sup> House and especially affects Scorpio individuals born November 10-21 through the end of your birthday cycle in your opposite sign, Taurus, affecting personal and business partners, roommates, the public, astrologers, consultants, medical and legal professionals.** For the remainder of 2024 and into 2025, Uranus initiates shake-ups that may occur in both personal and business relationships, including those individuals who live with you, family members who return home, or with collaborators, or consultants whose expertise is important to you as you ask for advice that drives your life circumstances. Uranus creates unstable or unexpected conditions. Stay away from volatile gatherings. You could have run-ins with individuals whose political views differ from yours. The norm in a typical Uranus cycle is chaos and if this erratic planet opposes your Sun, anything goes. Pay attention to details if your birthday falls on the dates listed in this section. What behavior has changed among those in your circle? Where do you need the most help? Uranus turned retrograde on September 1 and will return to direct motion on January 30, 2025. Cultivate healthy relationships with balanced individuals and build trust with those whose attitudes reflect calm intelligence. **Neptune is in Pisces all through your birthday cycle and connects with your Sun through the end of your Scorpio dates if you are born November 16-21 while it moves through your 5<sup>th</sup> House of children, dating, vacations, social life, recreation, sports, risk-taking and romance. Neptune turned retrograde on July 2 and moves direct on December 7, 2024.** The 5<sup>th</sup> is a social and romantic house indicating that a Pisces Neptune moving through it favors your Scorpio planets and creates romantic, sensual, and psychic cycles. **In 2024 Neptune tempts you with opportunities to engage in more playtime instead of keeping to a rigid timeline.** Avoid clashes with difficult people. Neptune brings a spiritual allure that attracts new relationships or adds a mystical aura to ongoing ones. You could find someone who keeps your heart beating to the rhythm of love. With Saturn present here this year, you could also make a serious decision to marry. Control reactions to information you learn by being sensitive to others' thoughts and feelings. Integrate your critical

psychic filter into daily analytical work for greater success. Eliminate unnecessary barriers, so that life manifests a more satisfying emotional direction. Be firm but loving. Avoid Neptune's confusion by getting away from its infamous haze and creating happiness. Make positive changes while you cancel fear patterns for a smooth transition to a safe haven that inspires confidence. Enjoy new people and date if you are single. Show children your adventurous side while you build a strong bond. Replace a poverty consciousness by embracing the Law of Abundance. **Retrograde Pluto fell back into Capricorn in early September, turned direct on October 12, and will settle back in Aquarius on November 19 to resume its long journey through March 8, 2043. Yes, this is the year you see the last of the Capricorn energy which broke records in teaching us to manifest self-talk after its long tenure in your solar 3<sup>rd</sup> House of communication, computer equipment and cell phones, cyber security, education, mental outlook and how your mind works, people who live near you, cousins, siblings, the neighborhood, transportation, and technology.** Those of you born November 20-21 felt the most impact from Pluto in Capricorn at the end of its cycle. Hope you notice the new freedom. In 2024 **Pluto took a strong foothold in Aquarius**, the sign that offers different possibilities and an impersonal yet humanitarian attitude in its approach to relationships when it moved to your solar 4<sup>th</sup> House of home, family, and base of operation. Pluto mostly affected Scorpios born October 22-24 this year. This slow-moving dwarf planet moves approximately 3 degrees a year. Next year it will affect those born October 23-25 with a retrograde period that runs from May 4-October 13, 2025. Follow a path deep within you to succeed in resolving angst. Add new skills or hobbies to your portfolio that address your long-range goals and life aspirations. You can achieve success if your birthday falls on the above-mentioned dates. Pay attention to facets of your life and stuck conditions. Pluto helps you shed old baggage. Let this Pluto transit in Aquarius help you assimilate new patterns that influence desirable change. Share your deep insight with others. Eliminate rigid conditions or opinions that release you from inner bondage. Experience the freedom you desire. Greet 2025 with optimism and clear insight to feel joy, inner peace, and prosperity in the intimate corners of your soul.

Eclipses last from 6 months to a year while their influence unfolds. Four eclipses already occurred in 2024. **The first lunar eclipse of 2024 took place on March 25 in Libra at 5°♎ 07" at 3:00 AM EDT in your solar twelfth house of behind the scenes activity, convalescence after an illness or surgery, introspection, charity, mystical and psychic experiences, secrets, and visiting the sick.** Plan some quality alone time if you are feeling exhausted, need time to work on plans for the coming year, or want to work on solutions to pressing problems. This position gives you the perfect time to work on manuscripts, books, or reports if writing is your forte. If you are contemplating a job change, now is the time to update your resume. If your birthday falls on October 27-29, you may have already begun to take action to make changes you have been considering related growth opportunities. An eclipse in this house often gives you the motivation to take yourself out of the competition by starting your own business. **Two weeks later, the first Solar eclipse of 2024 occurred in Aries on April 8 at 19°♈ 24' in your solar 6<sup>th</sup> House of work, details in your daily routine, health, nutrition, organizational expertise, relationships with colleagues or direct reports, and rapport with pets.** Should you return to work after a layoff or a long sabbatical, you may be assigned the task of implementing a major overhaul of company practices. Do your homework before making these changes. Survey staff and ask for helpful suggestions from co-workers. Get a feel for who might like to work with you on this

assignment. Interacting with the team gives you greater insight into the attitudes of those with whom you work. Communicating clearly and openly is key so that you identify any blocks that stand in the way of unity and harmony in workplace dynamics. Scorpios born October 10-12 were most affected by this eclipse. **The second lunar eclipse of 2024 occurred on September 17 in Pisces 25° ♋ 41' in your solar fifth house of amusements, socializing, children, love, romance, students you coach or teach, adventures, vacation, the entertainment world, and speculative ventures.** This highly active house will bring a surprise or two your way in this cycle, especially if you are in the midst of letting go of old habits that erode productivity. Avoid frittering away valuable time, daydreaming, or being indecisive when situations call for action. Don't wear out from juggling the conflicting that peers are taking. Insist on balance. The eclipse helps you heal multiple aspects of fragile relationships. Those of you born October 16-28 feel the greatest influence of this eclipse. Collaborators enjoy your talent and personality. This house has been the site of much upheaval due to the ongoing transits of Saturn and Neptune in Pisces. Opportunities for success accelerate in 2025. **The second solar eclipse of 2024 occurred on October 2 in your solar 12<sup>th</sup> House in Libra 10° ♎ 04' with an emphasis on hospital visits to take care of medical issues or to comfort others who are ill, plans in the making that are not ready for a reveal, creative writing, mystical phenomena, secrets, and solving mysteries, one of your favorite pastimes.** Those of you born November 1-3 feel the strongest vibes via pressure to keep your goals on track while you balance drive, creativity, and innovation. Call on teachers and mentors for the help you need. Implement new products or services that you have on the back burner. What you have developed should give you confidence that your product has integrity and will be successful in the marketplace. Be proud of the role you play in taking responsibility in boosting confidence in others. Continue to work on your plans and process discoveries while you monitor progress. **Two more eclipses occur early in 2025. The first solar eclipse of 2025 takes place on March 14 at 2:55 AM EDT in Virgo at 23° ♍ 57' in your solar eleventh house of friends, associates, professional colleagues, members of groups that share your interests, and the humanitarian side of business enterprises.** You could be asked to lead a group, run for office, or run a fundraising initiative for an organization. Expect your enthusiasm to mount as you discover the passion you have for developing new venues. **Two weeks later on March 29, the first solar eclipse of 2025 takes place in Aries at 6:58 AM EDT 9° ♈ 00' in your solar 6<sup>th</sup> House of daily routine, health, nutrition, organizational expertise, relationships with colleagues or direct reports, and ownership of pets.** People connected to this house could require a great deal of time and energy as you find ways to make policies and procedures work, improve collaboration, compare outlooks, and make decisions about allocation of tasks to best get the job done. Work on diet and health if you have been experiencing a queasy stomach. **This section may also relate strongly to those of you born with a Scorpio ascendant, Moon, or several planets in Scorpio. If your birthday or a planet falls on an eclipse degree, it is particularly powerful.** Showcase the talent you possess during this birthday year. Take classes to elevate competitiveness in the job market. If you have not written a book, this could be the year you get published. Savor your much deserved success.

**Scorpio birthdays include:** Joaquin Phoenix, Ryan Reynolds, Nancy Grace, Pele, Dwight Yokam, "Weird Al" Yankovic, Katy Perry, Condoleezza Rice, Caitlyn Jenner, Seth MacFarlane, Hillary Clinton, Kevin Kline, Cary Elwes, Pat Sajak, Cat

Deeley, Y.A. Tittle, Annie Potts, Barron Hilton, Doug Flutie, Sasha Cohen, Emma Stone, Michael Strahan, Greta Browner, Tracy Nelson, Rita Wilson, Brad Paisley, Dylan McDermott, F. ## PLANETS in ACTION OCTOBER 22 through NOVEMBER 21

Uranus (sudden change and chaos) and Neptune (confusion and psychic insight) are retrograde. Individual natal charts tell the story of how you are faring in this chaotic time where many conditions on earth send confusing signals. Another change of importance is that Daylight Savings Time ends at 2 AM on November 3. Move your clocks back one hour. Mercury resides in Scorpio through November 2 and then joins the Sun in Sagittarius on November 2 at 3:18 PM EST. That date has an abundance of planetary energy that gives the sign, Scorpio, a workout all day with harmony and a few challenges along the way. Mercury goes retrograde on November 25 through December 15 just in time to give you energy to make holiday plans come true. When the Moon enters Sagittarius on November 3, the Universe bursts forth with a perfect shot of adrenaline that stimulates movement for those who are stuck and craving a new path. Emotions are high in November and stimulate romance, and passion for areas that are most meaningful for you. You'll be raring to go on Thursday the 24th when Mars in Cancer sextiles Uranus in Taurus and the Moon in Leo trines Venus in Sagittarius. The Leo moon stimulates Chiron in Aries and Jupiter in Gemini urging you to focus on anything of value and heal doubts while winning fans. Election day, November 5, 2024, offers a void of course Moon in Sagittarius at 5:23 am (the public) that moves to Capricorn later that morning at 10:17 am EST, often an indicator that unexpected circumstances prevail at the event you are tracking (outcome at the polls?). Venus in Sagittarius is compatible to members of fire and air signs through November 11 showing an interest in planning for holiday shopping, organizing projects, and finding clothing, travel or vacation packages, and gift sales for those on your list. When Venus moves to Capricorn, the focus shifts to organizing a committee, a party or other important event. Networking brings positive results. Mars is in Leo and loves to be in charge. On December 6, the passionate planet goes retrograde through February 23, 2025. Commitment to work projects may be renegotiated. Slowing down completion of plans does not fit the style of Mars in Leo. Those with Leo planets and a strong desire to get things done may encounter frustration and impatience. Avoid having surgery during this period, especially on your face if your chart so indicates, or healing time could be much longer. Treat children to creative Halloween costumes and stock up on their favorite candies and treats. Mars in Leo opposes the Moon in Aquarius on December 6 and reminds you to stay safe in

travels and interactions with strangers. Solve problems without impulsive decisions. **Jupiter is retrograde in Gemini all month with Mercury in Sagittarius opposing the benevolent planet of expansion toward the end of Scorpio's cycle. Communications may become overwhelming and can shake up the calm on November 24 with Mars in Cancer opposing waning Pluto in Capricorn.** Right now Jupiter most affects those in Gemini born June 8-11 with the conjunction on their suns. Make wise decisions in both personal and business matters regarding social activity, allocation of funds, a career decision, or managing personal growth. Solve any partnership issues that arise. Do comparison shopping before making purchases to maximize savings. Jupiter opposes Mercury in Sagittarius on November 18 adds to confusion over what to handle first when you or the workplace are bombarded with requests and demands for answers. Those with degrees in their signs from 17-20° should take note and be cautious before signing agreements. Honor commitments. Meditate or take a deep breath before working with anyone who is agitated. **Saturn is in Pisces during this cycle traveling over 12-13 degrees of the sign and most affecting those born March 2-5 as it makes its way through the 2-1/2 year cycle it began in 2023.** Virgos born with planets in their sign on these degrees feel the opposition energy; early born Geminis feel the tension, too, as do early born Sagittarius. Cancer and Scorpio feel energized and Capricorn gets ambitious. Which conditions have you identified in your life that could use help? What worries you now? Determine what you want to address. Avoid getting in the middle of others' arguments. Make adjustments to any routines that put you in a rut. The Sun in Scorpio is trine Saturn in Pisces on November 10-11 that works beautifully with your mindset and personality. Start the week off productively. Love and romance work best early in the week. **Uranus in Taurus** is retrograde this month traveling over the 25<sup>th</sup>-26<sup>th</sup> degrees of the sign and **most strongly affecting Taurus born May 15-18.** Those born in the other fixed signs, Leo, Scorpio and Aquarius with planets at 25-26 degrees release their stubborn streaks and let go of attitudes that haven't been working well. Success may come to earth signs Virgo and Capricorn with these degrees or water signs Cancer and Pisces who may receive a gift, commendation, raise, or an unanticipated award. Uranus may affect those of you who have been in a slump, possibly over money matters, family discord, or career issues. Embrace change so your heart can more easily respond to the release from stifling restrictions. Stay flexible around the 16<sup>th</sup> when the Sun in Scorpio opposes Uranus in Taurus. Energy is erratic. Globally, the U.S. has aided less prosperous or downtrodden countries, yet certain U.S. citizens have been highly critical of the President's benevolent gestures by siding with unfriendly or unethical regimes in warring countries. Anything goes right now. **Neptune in Pisces** has been retrograde since July 2 EDT and turns stationary direct on December 7 EST. It most affects those born March 17-19 this month who will benefit greatly. When confusing Neptune patterns dissolve and highlight the truth, hope will be revealed. Once you embrace reality, you'll be glad you had time to dream and manifest a new outlook on life. Others most affected by this transit are Geminis, Virgos and Sagittarians born with the Sun at 27 degrees of their signs who are experiencing relationship and career confusion and life uncertainties. Assess key areas such as your household, workplace, health, or the quality of relationships and look honestly at the conditions. Cancers, Scorpions, Tauruses and Capricorns born with planets around 27 degrees benefit from the transit and are able to remove blocks in diverse departments of life. During the retrograde cycle, be alert to allergic reactions to medications, toxic environmental conditions, contaminated food, faulty diagnoses, and poor air quality. As we approach Thanksgiving, the Sun and Mars provide abundant energy to manifest harmony, team

rapport, and happy exchanges when the family gathers at the start of Thanksgiving week. Bond with favorite relatives and friends and explore productive networks. Allow plenty of time to travel over the holiday. Mars in Leo opposes Pluto in Aquarius just ahead of Thanksgiving, so avoid disagreements. Bring out the sweets and serve your favorite pies along with abundant hugs and kisses to celebrate a warm and loving holiday.

**Pluto in Capricorn** is direct at 29 degrees during this cycle and most affects those born January 19-20 while also affecting the other cardinal signs with placements at 29 degrees - Cancer, Aries, and Libra who experience challenging vibes that alert you to watch for personal criticism, privacy breaches, revealed secrets, lost papers, and confidential disclosures. Avoid individuals with loose lips. Where does this degree fall in your chart? Check it out to release blocks and solve annoying problems. The closer the planet is to a conjunction (around the same degree) or the opposition or square, the greater the importance. If you have been struggling with hard times, illness-related burdens, financial shortfalls, relationship discord and losses, a reversal in direction may occur during the coming months. Pluto owns the subconscious mind and knows where the skeletons are buried, including wounded relationships, tellers of tall tales, or those who assume a phony façade at the personal or global level. Headlines could be hurtful and loaded with revelations with several shock factors. A Grand Cross of Cardinal planets occurred earlier in October. Politics strain those who want to block progress. Election related manipulation produces hostility and plans that are detrimental to humanity. Watch what happens to the fate of leaders who don't value truth and resort to embellishing facts. Pluto returns to Aquarius on November 20. Scorpio speaks to revelation and rebirth. Embrace the deeply transformative benefits of transiting Pluto! **Chiron the Wounded Healer is in Aries** in retrograde status at 19-20 degrees and affects individuals born April 9-11. Be courageous while you address fear. Sleep peacefully to release energy that relieves you of old blocks and negative memories. Open your heart to greater love and joy. Cherish your power and embrace only what attracts positive energy. Affirm your convictions daily so that dreams come true. Discover the depth of love that awaits you. Seek clarity. Exercise, practice yoga, eat well, and embrace perfect health. Love is your soul's guardian.

## PEOPLE, PLACES AND TOPICS IN THE NEWS:

The month of October has seen high activity in the bid for becoming the next President of the United States. Acting President, Kamala Harris and former President Donald Trump are vying hard on the campaign trail to win votes that decide the outcome of the race. Note the comments I made in the previous section regarding the unsettling conditions that prevail on Election Day, November 5. **VOTE!** Meanwhile President Joe Biden has been traveling to Germany to meet with Federal President Frank-Walter Steinmeier to strengthen the close bond the leaders of Germany and the US share as allies and friends while they coordinate geopolitical activities that include Ukraine's defense against Russian aggression and events taking place in the Middle

East. The severe impact of hurricanes Helene followed by Milton's October 9 battering of Florida delayed the President's travel to Europe. The President received the Grand Cross Special Class of the Order of Merit of the Federal Republic of Germany that recognizes President Biden's significant contributions to the German-American friendship and transatlantic alliance which he has actively shaped throughout his five decades of public service that also acknowledges his response to Russia's aggression against Ukraine. Congratulations on a job well done. More travel is on the agenda for President Biden through December.

**Many individuals of note passed away during the last few months:** singer and actor **Kris Kristofferson** a Cancer born June 22, British actress **Maggie Smith**, a Capricorn born December 28, known for her wit in both comedic and dramatic roles, member of boy band One Direction **Liam Payne**, a Virgo born August 29, Ethel Kennedy, American human rights advocate and wife of the late Robert Kennedy, an Aries born April 11, Cissy Houston, singer born September 30, a Libra, and mother of the late Whitney Houston, Luis Tiant, Cuban baseball player born November 23, a Sagittarius, and Lily Ledbetter, an activist who inspired the Ledbetter Fair Pay Act of 2009, an Aries born April 14. May they rest in peace.

**Dancing With The Stars:** This popular show returned to the ABC Network this season featuring hosts Alfonso Ribiero and Julianne Hough along with judges Derek Hough, Carrie Ann Inaba, Bruno Tonioli, and diverse guest judges. Contestants learn a variety of dance routines to compete with current competitors while interpreting each week's dance to demonstrate skill level. The October 22, 2024, show features music from the much loved Disney themes. Vote for your favorite.

## READERS CORNER

I received a tremendous response from readers who enjoyed learning about various aspects of Venus and how it affects their charts. I am glad you enjoyed this question and appreciate your comments. Thank you for your input. This month we'll look at Pluto's last hurrah in Capricorn and how it may affect the outcome of an application for a new job. I welcome your feedback.

**Q.** I am a Scorpio born on November 19. I would like to know if Pluto leaving Capricorn will be a positive transit for me to secure a job I applied for last month. I applied for two other jobs that I did not get over the last two years. This position seems like the best fit of the three. I get along with the manager of the department and have known him for a couple of years. He has a reputation of being fair and encouraging toward employees and their development. This is the first time in his department there has been a vacancy that matches my experience, so I went for it. I know he is a Cancer born July 21. The application deadline was October 15. Do you see any encouragement in my chart? Thank you for your assistance.

**A.** The very first thing I noticed about your question was that the birthdays of you and your potential boss are in perfect trine to one another, a very harmonious connection. Furthermore, your natal moon is in Pisces at 23 degrees very close to the September 17 lunar eclipse at 25 Pisces and it falls in your second house of income highlighting a change in salary. A further look shows that you and the Cancer have air sign Mercuries, his in Gemini and yours in Libra that favor positive communication

between you. Things are looking up. I believe you will be called for an interview in early November between the 1<sup>st</sup> and the 8<sup>th</sup> (both of these dates favor your chart). I wish you much success in your interview. Find out as much as you can about the job itself. Schedule a consultation if you need clarification after your interview. Good luck! Please share the outcome.

Thank you to all who sent in comments on Libra's newsletter.
