Compliments of
Alice DeVille

Dear Readers,

Even in Florida we had our fill of winter this season. Let's leave the snow and chilly air behind. Bring on the warmer days that accompany spring's arrival. Mystical Pisces closes out the astrological year encouraging you to embrace the life you desire. Visualize the profusion of colorful blossoms you'll have on display after the flowers you have planted grace your garden beds. Play lilting Irish music as you celebrate St. Patrick's Day and toast loved ones who light up your life with happiness. Pisces owns abundant creative visioning tools that influence your decor. Your passion for solving mysteries gives you solutions quickly. Pisces just knows what action to take when the response is profound. You greatly appreciate films, music, art, and dance. Many Pisces own substantial collections of music that reflect memorable eras. Create a celebration for your Pisces friends and relatives in a homey environment with a lovely meal. Pisces favor elegant dishes at a quality restaurant. Popular gifts include tickets to ice shows, movies, plays, and musicals, or purchase gift cards for takeout meals, or from grocery markets. A gift certificate for an oil change keeps their "wheels" running smoothly. Pisces enjoy so many types of gifts -- buy crossword or jigsaw puzzles that offer them hours of relaxing enjoyment. Gambling-oriented Pisces enjoy lottery tickets and scratchers, foods to snack on like popcorn or nuts, favorite fragrances, and spicy culinary condiments. Include lottery tickets for an extra birthday treat.

ANNOUNCEMENTS:

Congratulations to HG for winning the January drawing; February's winner will be notified on the 28th and will receive a \$15 discount toward your next consultation. Those of you who schedule an appointment February 18-March 19 are eligible for a \$15 certificate covering appointments booked through March 31. Be on the lookout for

evolving telephone con artists who leave a message for someone else using your phone number it. Do not respond, in fact, don't answer the phone if you are unfamiliar with the phone number. If the call is legitimate, you will receive a voice mail message. The callers often want you to answer questions and once you respond, they hang up, but call you again using another pitch to lure you into their business. You could be agreeing to an action that you don't want. Reboot your computer if it gets hung up while you are looking at an email message that seems stuck. Run a security check with your software program. Never provide callers access to a credit card or bank account number when you have not initiated the phone call. Flag SPAM messages related to vendors or banking and financial institutions and send them to the company's security department without opening them. Happy birthday to A, M, B, ML and A! Happy 34th Anniversary to J and D.

I accept payments for services via PayPal (www.PayPal.com) where you can use either credit cards or debit cards directly from your checking or savings account at this secure site. Although you don't need one to do business with me, I highly recommend obtaining a PayPal account or a similar venue. You won't have to risk giving permission to vendors to keep your card information on file and can change the payment method to suit your needs. PayPal notifies me when the funds have been received in my account. My PayPal address is through alice.deville27@gmail.com. My phone number is 1-813-374-5398.

BIRTHDAY HIGHLIGHTS FOR PISCES

Happy Birthday, Pisces! Your astrological symbol is the Fish swimming in opposite directions while reflecting compassion, imagination, and a desire to understand differences, qualities you cherish as a water sign element. Pisces, with ruler Neptune, rules the 12th House of seclusion, retreat, and regrouping, allowing you to enjoy personal freedom while generously sharing your spirit with loved ones. Behind your sensitive eyes lies a probing mind and a love for solving mysteries, embracing romance, following crime stories, and taking on challenges when you feel passion for the cause. Like the fish, you often move in too many directions at once or refuse to be realistic when it comes to limiting activities. Perhaps you hide out for days to recharge your batteries by working or reading in bed. Clearing your head means checking into your sacred sanctuary to search for the truth and escape the scrutiny of nosy types who ask too many questions. Many Pisces are fond of gambling, playing the slots or the lottery, often winning, especially if your natal chart has a prosperous Jupiter. Pisces daydreams frequently. Many of you spend too much time on games, hobbies or killing time. The rest of you have a practical approach and refuse to let grass grow under

your feet when you have a deadline to meet. Yours is the last of the mutable signs of the Zodiac with Neptune as your ruler and the natural occupant of the 12th House of secrets, planning, behind-the-scenes activity, mysticism, meditation, confinement, convents, escape, charity, handicaps, hospitals, widows, orphans, secret enemies, institutions, indirect lighting, loose ends, poetry, and confidential matters. If you have natal Neptune in your 1st House, your Pisces traits are accentuated. Spirituality, discovery, deep space, fame, psychic ability, and notoriety may claim your attention now while **transiting Neptune in Pisces occupies the heavens through 2026. Use your ESP especially if this is the year that Neptune is connecting to your Sun as it will if born March 17-20! This year Neptune makes an introductory journey into Aries from March 30 to October 22 when it returns to Pisces to play out the remaining months of its cycle in your sign.** This phase takes an entire year to complete giving you a chance to clear the fog on your radar screen. Identify the best action dates and clarify priorities because you need plenty of time to make the changes you desire. Your colors are lime, rose tones, lavender, mauve, purple, sea green, violet and royal hues. You may attract diverse sources of income via creative ideas that lead to a new beginning this year. Make purchases at the spring shoe sales to find comfortable footwear that compliments both your casual and dressy wardrobes. Pisces rules the liquids of the earth including oil and gas, aromatherapy, alcohol, medicinal drugs, illegal drugs, ether, and intoxicating perfumes. The paternal side of the family is part of your domain. Pisces rising has bedroom eyes and can be flirtatious, charming, and kind especially when you listen and remain calm. This year the Sun enters your sign on February 18 at 5:07 AM EST and leaves on March 20 at 5:01 AM EDT. Material in the following section may also refer to individuals with Pisces on the Ascendant.

Mercury is direct in Pisces as your sun sign period begins and leaves Pisces on March 3 at 4:04 AM EST in your solar 1st House for a rapid trip through your sign before moving to the passionate sign, Aries where it spends the remainder of your sun-sign period turning retrograde on March 15 and going direct on April 7. Work efficiently through this period when Mercury occupies Pisces in your first house and Aries in your 2nd house to finish up your pending projects, tackle housecleaning, file and shred papers, or prepare your taxes. You'll be glad to be on top of matters feeling content and satisfied that all is well in your world. If you feel exhausted, take a short nap to replenish energy and don't worry if you can't finish everything in a couple of days. Those of you in a relationship may feel particularly loved even more when romantic gestures come your way. Start new projects while the great communicator is direct, checking your natal chart for favorable dates during this run of Mercury in Pisces. **Venus occupies Aries as your birthday year begins, turns retrograde on March 1 and finishes out this cycle on March 27 when it returns to Pisces to give you more time for creative contemplation in your solar first house. Take time to evaluate close relationships. Venus stays in your sign through the end of April highlighting your sparkle and shine.** Enjoy the vibrancy and the attention you receive from others during this time. Energy levels soar as you accomplish what you desire and feel happiness within. Accomplishment makes you happy. Show a kind gesture to a romantic partner. If you meet a new prospect the weekend of the 23rd, learn as much as you can about this person. Check with social contacts. Venus in your sign helps you engage in a variety of relationships during March and April. Enjoy entertainment, intuitive vision and creative insight. **Mars has been retrograde since December 6 in both Leo, and now Cancer, and is about to break loose on February 23 at 9:00 PM**

when it turns direct at 17 degrees of Cancer in your solar 5th House of romance.

This Cancer journey allows you the time to assess current reality in both romantic and business relationships, bond with children, develop plans, improve health, and schedule enjoyable ways to celebrate special events for you and your family or romantic interests. If your health has been under par, take the time to visit medical specialists or have a medical or dental checkup. Hone your skills in social media. The first few days in your birthday cycle could be overwhelming and demanding. Catch your breath. Use your energy to complete old projects in the next six weeks. Don't settle for taxing options. Plan gardening projects but don't begin them until the danger of frost has passed. Outdoor chores will go more smoothly in mid-April when weather improves. **Jupiter is direct in Gemini (as of February 4) in your solar fourth house representing home, family, foundation, base of operation, residents of your home, real estate, and end of matters.** Life will fill you with anticipation in March just thinking about all the home-based projects you want to tackle and the vision you have of the finished product that is percolating in your mind. You may also feel excitement over the first lunar eclipse of the year that occurs on March 15 EDT in Virgo that stimulates your 7th house of partners. Jupiter in this important 4th house often deals with expansion, renovation, sale or purchase of property, or landscaping and investment in property such as adding fences, paving, and an outer makeover involving painting or a new roof. Entrepreneurial Pisces types may want to start a home-based business and create ways to market your product. If you are looking to take on work from home, share your resume with a strong network. Be on the lookout for announcements and explore your options. Someone in your household may move out this year leaving you with decisions to make regarding how you will use vacant space. Wherever Jupiter transits in your natal chart, look for ways to expand your priorities. While waiting for Mercury to go direct in April, clean up any cluttered space in your home - closets, drawers, a home office, or garage. Freedom from cramped quarters gives you abundant energy and enthusiasm. Jupiter will move to Cancer on July 9. Its next retrograde cycle is from November 11 through March 10, 2026.

Saturn in Pisces arrived in your first house two years ago and will most affect you this year if your birthday falls March 9-20. Saturn is known as a stern taskmaster. The planet of restriction occupies the sector that deals with assertiveness, health, individuality, innovation, passion, energy, and self-development. Formulate plans for claiming your power in 2025. In 2025 Saturn goes retrograde on July 13 through November 27 when it goes direct in your sign. A new wrinkle appears in Jupiter's transit when the planet of abundance and mastery makes a teaser appearance in May in Aries in your solar 2nd house of income, wealth, salary, and self-development. Watch this section of your chart carefully, especially if you have planets in this house. How are you managing responsibility? Are you a quick starter or a procrastinator? What do you do that gives you a spark of passion? If you identify snags in your style, analyze what causes them. Develop affirmations and solid self-talk to get you moving toward perfecting goals. Enthusiasm for life follows. Rely on your flair for intuitive insight Saturn holds you to strict standards of conduct and expects you to review commitments. Let go of extreme expectations and trust decisions. Accelerate options that lead to a more meaningful, productive life. Check integrity of electronic equipment and the value of social networks. Remember that Neptune is in this house as well and can be a trickster. Check information carefully. **Uranus is direct in motion in compatible Taurus now and occupies your solar 3rd House of communication, contracts, messages, personal and business talks, transportation, and all forms of technical instruments - phones,**

tablets, servers and mechanisms for increasing transmission speed. The planet of chaos is gaining momentum on finishing its cycle in Taurus and will head to your solar 4th house of home and family on July 7 in Gemini. Uranus will turn retrograde on September 6 EDT and go direct on February 3, 2026. Uranus will occupy only 0-1 degrees of Gemini in 2025. Many of you may be shopping for equipment to enhance communications equipment to help tasks run more smoothly. You could be purchasing printers, computers, software, instructional, or media enhancements. Upgrade your security system and check it often. Compare rates. Rekindle relationships that have soured. You may get rid of old anger and your heart will thank you. Mars in Cancer favors your aspects during this period. Don't purge important papers that you may need in the future. Check carefully. Jupiter is in this house, too, until June 9 when it moves to Cancer for a year. People and conditions needing your attention may include your parents or other family members. With Uranus in a mental house, you'll juggle many issues as you identify solutions. Familiarize yourself with recently purchased electronics including Robot vacuums, phones, and a new tablet. Maintain a healthy mind, body, and spirit. The third house stretches your mind and consciousness. Since Uranus goes retrograde for a long period of time each year, so expect to find some erratic energy during the retrograde cycle. Those of you born March 13 through 20 experience considerable activity from Uranus this year. **Pisces, your birthday cycle honors your signature planet, Neptune in the 27th-29th degrees of Pisces in your solar 1st House of creativity, action, passion, independence, innovation, new beginnings, personal appearance and preferences, and assertiveness.** Those of you born March 17-20 may find yourself involved in making changes in your personal or work life. Shifts may occur on both the conscious and subconscious level involving you or others important to you, especially if one or more of you have experienced recent health, hardships, or relationship setbacks or are close to someone who has. Note that the first lunar eclipse of 2025 falls in your opposite sign, Virgo this year on March 14 2:55 AM EDT in your solar 7th house opposing Neptune in Pisces in your solar first house. Develop a strategy to correct matters that improve your health, finances, relationships, goals, and dreams. Stay alert to changes in the environment. Be careful what you wish on others that has a negative connotation - you would be shocked to find out what happens. Release stuck patterns. Welcome romance and find better health care providers. Celebrate your birthday with joy! Explore the depths of intuitive and psychic knowledge that you manifest in the house where your Sun or Ascendant fall. Have a party and share your favorite feast and birthday cake with others. Steer clear of extremists and avoid negative news content online via the Internet, mail, phone texts, and TV. Add healthy goals to balance your life. Use holistic methods like meditation, yoga, prayers, and metaphysics to discover inner joy. Release toxic air and people. Embrace your psychic gifts. **Neptune moves to Aries on March 31, 2025, turns retrograde on July 4, returns to Pisces on October 22 and turns direct in Pisces on December 10, 2025. Neptune will finally leave Pisces on January 26, 2026, when it begins a 12-year plus journey in Aries.** Neptune is in introductory mode this year and covers only 1-2 degrees of Aries through December 10 in 2025. Only those born March 19-21 will feel the effects of the early Neptune in Aries transit in 2025. **Pluto started 2025 direct in Aquarius in your solar 12th House and makes a connection to your Air and Fire Sign planets especially for those born February 18-22 and focuses on stuck conditions related to 12th house activity such as healing, balancing work and rest, holding negative thoughts in your heart, neglecting to visit the sick or to care for your health needs, rejecting truth, or denying the possibility that you might need to take care of your mental health, or**

release anger issues. Be positive in helping charities, supporting those who need to improve their physical or mental health, and send loving notes to people who long to hear a positive message. Work through lingering resentments; they sink energy. Pluto in Aquarius made a commitment to stay present through 2043 and helps you identify where you have been resisting change. You may feel that nothing bothers you, but Pluto's presence in your solar 12th house in Aquarius shakes up your psyche and could be a mechanism to help you face what is in the shadows. Embrace the truth and joy. Do more soul searching and learn more about understanding your fears. Passive resistance falls away when you trust your instincts, so remove the rose-colored glasses and look for a higher quality of relationships. For some Pisces, work may change either through a job condition, layoffs, job loss, or cutbacks in pension or benefits. Some of you may accept a new position or retire. If you are dealing with work-related rumors, sharpen your analytical skills via detective work to ferret out true conditions and solve complex problems. Identify the nature and type of information that helps you pull all the clues together. You had vibes that leadership or policies in your workplace could change. Be ready for them now. An attitudinal rebirth may occur early in the year. Use your ESP and intuition to establish new habits. In 2025, Pluto turns retrograde on May 4 in Aquarius and moves direct on October 13. Aquarius resides in your solar 12th house for its long journey to unearth the secrets you have locked away as you pursue your desire for self-renewal. Those of you born February 18-20 breathe more lightly with this sign change. Enjoy embracing positive new directions.

The new year offers four eclipse occurrences: two lunar (Full Moon) and two solar (New Moon) that generate intense periods which start to manifest a few months before they actually occur. You experienced the **last Solar Eclipse of 2024 in Libra 10° ♎ 04' on October 2 in your solar 8th House of joint income, savings, and debt, investments, estates, sex, wills, death, rebirth, psychological matters, and karmic completions** that may have resulted in financial improvements for you and your partner. Eclipses in joint money houses raise the potential for you or your spouse to receive a promotion or raise. **Remember if an eclipse falls on your birthday or on a natal planet, it takes on higher importance.**

Eclipse activity makes a strong statement in your life in 2025 with 4 eclipses affecting your chart during this cycle. As 2025 unfolds, **the first lunar eclipse of the year occurs on March 14/13 at 2:55 AM EDT in Virgo at 23° ♍ 57' in your 7th house of romantic and business partners, including spouses, roommates, common-law partners, and individuals with whom you have legal or professional dealings.** This eclipse could put pressure on you to make a decision if you are contemplating a marriage or engagement, or a separation if the relationship has been toxic. You're likely to be in contact with bankers or financial experts to learn more about credit scores, loan terms, and purchasing power. **Two weeks later the first Solar Eclipse of the year occurs on March 29 at 6:58 AM in Aries, 9° ♈ 00' in your solar second house of assets, money, personal income, planned purchases, valued material goods, and self-development.** Be in contact with lenders if plans include purchasing a new vehicle, pursuing long-term educational courses, buying office equipment and Smart Phones. Adjust your work schedule if new conditions arise. Showcase your talents, organizational skills and expertise, performing work assigned to you with exceptional quality. Managing contracts may be a key part of your work this year.

The second lunar eclipse of 2025 occurs on September 7 at 15° ✕ 23' in Pisces and falls in your solar first House at 2:09 pm EDT and highlights assets such as personal appearance, self-image, assertiveness, your character, individuality, personality and drive. An eclipse here challenges you to work on your goals and develop a plan to identify interests and objectives. If you are experiencing a disagreement with a loved one, address it, and resolve it before it explodes. Sometimes an eclipse in Pisces leads to a surprise proposal or an elopement. **The final solar eclipse of 2025 occurs in Virgo at 29° 05' at 3:54 pm EDT on September 21 in your solar 7th house of romantic and professional partners. If you formed a business partnership,** let the Law of Abundance fill your world in the spirit of cooperation and integrity. Your increased knowledge of partners' values leads to greater stability and success. I wish you love and blessings. PLANETS' POSITIONS FEBRUARY 18-MARCH 20

The first eclipse of the year falls during this period on March 14 at 2:55 AM EDT in Virgo 23° 57'. You will start this cycle in a highly productive mode fully engaged in work that meshes nicely with goals. By the 21st idealists will begin to clash with manipulators when Mars in Aquarius squares Jupiter in Taurus. Assess major facets of your life, especially your Sun sign. **Mercury starts this cycle in dreamy Pisces and then moves into Aries on March 3 at 4:04 AM EST** where it turns retrograde on March 14 and continues its cycle moving back to Pisces and going direct on April 7. While Mercury is close to your sun, you'll have an abundance of mental and physical energy, allowing you to tackle projects, complete pending work, and pursue important goals. A positive time to find romance begins around the Pisces new moon on February 27. The Full Moon of March 14 in Virgo opposes the Sun, Saturn, and Neptune in Pisces. The saving grace is that the opposition trines Uranus in Taurus and sextiles Mars in Cancer, giving insight into baffling puzzle pieces that are affecting your life. The 18th is a good day to concentrate on problem solving. The 23rd brings new life to possibilities and could start a new venture. Make and return phone calls and schedule meetings. Attract abundance and fresh ideas. **Venus starts out in Aries and turns retrograde on**

March 1, makes it back to Pisces by March 27, spends April in Pisces, moves direct on April 12 and returns to Aries on May 1 to complete the Aries cycle in early June and joins early Neptune in Aries, a significant transit for those born March 19-21. Romance and discussions related to social change and social media could be part of the cycle for Aries, early Leos, early Sagittarius, and early Aquarius. The first week of March may be exciting for many with less stress and more passion and momentum for working on goals. Sudden opportunities come up for Pisces and other water signs that bring strong insight for creating a new vision. Do what you can to set wheels in motion before Mercury goes retrograde on the 15th. Purchase equipment and clothing you'll need for spring and summer plans; look for sales after April 7. Give your face an instant uplift with a new hair style. A colorful scarf adds glamour. Work on goals all month and enjoy the feeling of accomplishment. **Mars, retrograde since December 6 in both Leo and now Cancer goes direct on February 23 and spends the rest of the Pisces cycle in Cancer accelerating the volume of domestic chatter and focusing on nurturing family and close friends.** Avoid erratic energy on the 20th-21st especially if you are missing key facts. Have a plan for correcting problems in analytical work or mend fences where tension exists. Spend time completing tax returns and ascertaining that forms and documents are in order. Accept invitations for museum exhibits, entertainment, cultural or sports events, and fine dining. Get out of work mode, embrace leisure, and enjoy new alliances. **Now that Jupiter is direct in Gemini, it travels rapidly during the entire Pisces cycle, most affecting you this month if born March 1-6 as it creates the challenging square.** Jupiter may create discord for Virgo, Scorpio, Sagittarius, and Capricorn with planets at 11-14 degrees of their signs. Gemini, Leo, Libra, and Aquarius with planets at these degrees may experience benefits in executing plans. Spend down time looking over written material, editing with a critical eye, polishing material or numbers, and seeking positive feedback for quality work during this cycle. Visualize success. With hard aspects to Saturn and Neptune in Pisces, and retrogrades in Mercury and Venus, be prepared for delays and the need to sort through confusion. Welcome the Spring awakening with positive vibes during the week of March 17-24. **Saturn in Pisces travels direct through 19-23 degrees of this sign most affecting Pisces born March 9-14. If your work involves contracts, legal papers, documents, and reports, be sure to breathe deeply.** Proofread carefully to check for accuracy and readability. If you are a Pisces you will experience Saturn through February 14, 2026. This month other mutable signs (Gemini, Virgo, and Sagittarius) experience challenges if you are born with planets in your sign from 19-23 degrees. Do your best to defuse tension, eliminate ruts and move into calmer waters while Jupiter in Gemini adds tension in key places. Important matters related to your career, work, love life, physical body, self-image, and passion for life occupy your mind. Strengthen relationships with colleagues, family, friends, and relatives. Get health checkups especially if you are born with planets at 19-23 degrees of Pisces. Taurus, Cancer, Scorpio, and Capricorn benefit from smoother transactions. Seek medical attention if you are anemic and have been feeling low on energy, or sluggish. Set priorities, modify goals, and take a time out for fun and adventure. Saturn is known for imposing restrictions, so keep your eye on the economy and the workplace current. Readers have been reporting layoffs, especially those in the federal sector. Where is Saturn in Pisces housed in your chart? Make sure you know if you are tracking emerging situations. **Uranus, the planet of the unexpected continues on its chaotic 7-year journey through Taurus now affecting the lives of Taurus born May 14-16 and creates new challenges. Although it seems contrary to the Uranian nature, Uranus prefers more security than usual in the conservative**

sign, Taurus. Stay calm when unexpected disruptions hit your world out of the blue. Note what happens prior to the change. Stay aware of Uranus's current presence with planets at 23-24 degrees of Taurus, Leo, Scorpio or Aquarius who experience sudden jolts. Those born with planets at these degrees in the signs, Virgo, Capricorn, Cancer and Pisces experience positive surprises, unexpected gifts, windfalls, cash, and benefits. Although intensity, upsets, and drama may be in the picture for the fixed signs, the events that occur depend on the number of planets affected in individual charts. Check with your astrologer. Transits of this planet remind you that "your life can change in a day" as you witness truth and insight through spontaneous revelation. Taurus, you claim the spotlight in 2025 and will enjoy Uranus' presence for another year while the Uranus conjunction to your Sun plays out through the end of April 2026. **The planet of revolution is gaining momentum on finishing its cycle in Taurus and will head to Gemini on July 7. Uranus will turn retrograde on September 6 EDT and go direct on February 3, 2026, EST. Uranus will occupy only 0-1 degrees of Gemini in 2025.** Prepare for changes by assimilating unfolding opportunities as you claim your power and go after desired goals. Stay flexible. **Neptune is another planet that is gaining speed to complete its cycle in Pisces. You may be surprised to know that Neptune will leave Pisces on March 31 and ignite Aries. Neptune moves to Aries on March 31, 2025, turns retrograde on July 4, returns to Pisces on October 22 and turns direct in Pisces on December 10, 2025. Neptune will finally leave Pisces on January 26, 2026, when it begins a 12-year plus journey in Aries.** Neptune is in introductory mode this year and covers only 1-2 degrees of Aries through December 10 in 2025. Only those born March 19-21 will feel the effects of the early Neptune in Aries transit in 2025. **Neptune in Pisces is currently influencing Pisces born March 17-20 as well as Cancers and Scorpions born around 27-29 degrees of their signs or with other planets at these degrees.** Use your strong intuitive hunches to experience inner power, insight, and self-discovery. Certain signs like Gemini, Virgo and Sagittarius with planets at 27-29 degrees with these aspects may be experiencing information overload. Faulty thinking patterns often lie at the core of annoying confusion. Often, associations with others necessitate working through the layers of fog until they truly understand different points of view. Head to a water resort, or find healing professionals that help restore your health and minimize anxiety if you are feeling highly stressed. Eligible Pisces may attract a new romance only if you step out of your comfort zone and into the spotlight of the social world. Engage in stimulating discussions with an unbiased perspective that helps you change your opinion about subject matter that used to turn you off. Attract participation and understanding. Say good-bye to blocking options. **Pluto started 2025 direct in Aquarius and makes a connection to your Air and Fire Sign planets especially for those born February 18-22 and focuses on stuck conditions. Balancing work and rest, holding negative thoughts in your heart, and neglecting to release anger issues.** Work through lingering resentments; they destroy energy. Pluto in Aquarius made a commitment to stay present through 2043 and helps you identify where you have been resisting change. Look at the house where the transit of Pluto lies for clues. You may think nothing bothers you, but Pluto's presence in your chart in Aquarius shakes up your psyche and could be a mechanism to help you face what you are denying. Embrace the truth. Do more soul searching and learn more about understanding your fears. If born January 20-22, your Aquarius Sun relates strongly to this transit. Discuss relationships that need work and are stuck in negative holding patterns. On a global, governmental, and political level, note that internalized anger among leaders keeps flexibility at bay and prevents formulation of wise decisions and

trusting relationships that stimulate confidence and unite constituents. Harsh behavior leads to roadblocks. Allow integrity and justice to replace lies, manipulation, and cowardice. Pluto supports catharsis and keeps advisors, consultants and therapists engaged. Clearly examine career, financial, or personal advice to understand the next steps and use the right tools to plan accordingly. In 2025 Pluto in Aquarius goes retrograde on May 4 and moves direct on October 13, 2025. If you were **born with Chiron in Aries or are an Aries** check the house where it resides because you're having a Chiron return at 20-21 degrees of Aries. While in assertive and independent Aries, The Wounded Healer sharpens the awareness of those born April 9-12 involving issues related to diverse economic hardships, inflation, the cost of living, family, health, workplace, home, romance, and environmental quality. Prepare yourself to acknowledge information related to long-held secrets, financial losses, or misrepresentation of facts which may emerge. Examine facts and seek solutions. Thoroughly assess your situation before you act and be discreet in sharing details. Keep Bach remedies on hand to address emotional angst. A few drops of Rescue Remedy brings relief when processing grief, disappointment, and depression. Impatiens is a constitutional remedy for those with Aries planets and impulsive tendencies. Try a few drops of Impatiens and sip it slowly in water especially if you overreact to criticism and comments that disregard tact. If you get excited easily and loose-lipped, a dose of these remedies may calm your impulsiveness. Use laughter, the best medicine for release to nurture your heart and soul.

PEOPLE, PLACES AND TOPICS IN THE NEWS

This month a few of the topics that dominated the news related to settling the war in Ukraine with Russia. The President would like to see the U.S. take possession of Greenland, the Panama Canal, and make Canada our 51st state for security reasons. European leaders from Germany and France responded that the European Union would never let other nations attack their sovereign borders. Inflation remains high and prices of food and many commodities including utilities are steep. Eggs, for example, are selling for \$10 a dozen in some markets. The first report of a woman contracting bird flu in Ohio's Mercer County, dropped this weekend. Bird flu is reportedly the reason behind the escalation in prices. A total of 68 cases has been reported since January 2024, a disease that transfers to humans from deceased poultry infected with the disease. As I write this 25% tariffs have been imposed on steel and aluminum in the name of security. The President and Musk are quickly downsizing a number of federal agencies so expeditiously that lawsuits are being filed. Ripples of angst are filtering through federal agencies. Let's continue to visualize healing light and positive vibrations for our country and the planet.

Congratulations to the Philadelphia Eagles and the Kansas City Chiefs who competed in Super Bowl LIX. Congratulations to the Philadelphia Eagles for their outstanding game with a winning score of 40-22. In a game where there was no shortage of

playmakers from the Number 1 defensive line, Quarterback Jalen Hurts was named MVP of the game. After winning back-to-back Super Bowls in 2023 and 2024, the Chiefs were aiming for a 3-peat, an accomplishment no franchise has ever achieved. This was the Eagles third Super Bowl appearance in seven years, beating the Patriots in 2018 and losing a close game to KC two years ago.

Billy Crystal: A Pisces born March 14, 1948, in Manhattan, New York City, is an actor, stand-up comedian, and filmmaker known for his stage and screen roles. Billy's Solar chart depicts a man of high intelligence with sharp, spontaneous wit, (Mercury and Juno in Aquarius), a stand-alone Sun in Pisces that challenges natal Uranus in Gemini, that enhances Billy's communication style and gives it an unmistakable edge. Billy's chart also shows the Moon in Taurus with Venus, Ceres, and the Moon's North Node to ground him, and a stellium of Leo placements (acting, show business, drama) in his solar 5th house of entertainment. **Billy and Meg Ryan**, (a Scorpio born November 19, 1961) and his co-star in *When Harry Met Sally*, recently reunited for a Hellman's Superbowl ad using this Commercial to spoof and re-create their famous Katz delicatessen scene from that movie.

READERS CORNER

Last month's question regarding career houses in the natal chart prompted several messages from readers wanting to know more about the topic in their own charts. The primary houses related to career are 2nd, 6th, 10th and the house where Saturn resides. Aspects to any planets that reside there have to be taken into consideration. The best thing to do is schedule a consultation to look at the Big Picture. Today's question involves a woman who noticed in the last few months that she angers easily. She is asking for insight. What are your thoughts?

Q I am a Pisces born March 16 and feel that I have become very hyper and anger easily at work, a situation that evolved over the last three months. Since late November, I have been feeling a tremendous amount of irritability in the workplace. I have been confrontational with just about everyone; comments I would ordinarily ignore get on my nerves. I find myself showing impatience with how long it takes colleagues to complete their work especially if I am coordinating mine with theirs. Then I get annoyed with my boss for checking on the status of assignments. I catch myself giving sarcastic answers to questions or requests for information and that is not my style. I seem to put my foot in mouth frequently and don't like this side of me. Sometimes I am in such a rush and slam things on my desk or file drawer; have been getting more paper cuts than usual; and even stubbed my toe a few times on the cabinets - you would think that would slow me down. I don't think I am angry at anyone in particular. What is occurring in my chart to bring about this change? Thanks for your help.

A. Although transiting Mars seems to be a main player in your chart right now, many other aspects play a role in your change of temperament. You have late Cancer on the cusp of your 10th house of career and organization and 21 degrees of Leo occupy this house as well. On December 6 transiting Mars in Leo went retrograde at 6 degrees which meant that the planet of intensity would travel over the first 6 Leo degrees and all the Cancer degrees it had already covered including your 10th House cusp. Mars in Cancer spent most of January, all of February, and will spend all of March in your 10th house even though it will go direct on Sunday, March 23, it will not return to Leo until

April 18. That means conditions in your career environment intensify. You were born with the Moon in Aries in your 7th House (the public) and it has been in aspect to Mars in Cancer since early September 2024 creating a hard square (tension) with more to come until Mars finally moves forward in late April and early May of 2025. You have a 6th House (work environment) Sun in Pisces, Mercury in Aquarius in your natal 5th House (with Mars in Leo opposing it), and late Moon in Virgo in your 11th House of associations, peers, groups, and an eclipse on your Sun on September 17, 2024. Your 6th House is hosting transiting Saturn in Pisces, transiting Neptune in Pisces near your natal Sun, and you will experience another eclipse in your 6th House on September 7. While your 10th cusp was experiencing this long transit of Mars in Cancer, it opposed your 4th House Capricorn Cusp to add to the anxiety just as departing Pluto in Capricorn was making its final exit in late November 2024. And this year two eclipses in late Virgo will hit your Moon in Virgo in your 11th House. That is a lot to carry. Meditation, visualization techniques to help you relax, and write strong affirmations suggesting you remain calm and poised under stressful circumstances are excellent practices. Consult a doctor to check health conditions. Some individuals use Bach Flower Remedies such as Impatiens when this type of stress reaction occurs. I wish you much success in unloading the effects of these long transits and the eclipses with hard hits. Hang in there! Have patience. You will survive.

Thank you to all who sent in questions and comments about last month's newsletter. I'm glad you enjoyed the Aquarius issue and appreciate your feedback.
