Cyber threats have been escalating at rapid speed. If the PayPal scam has not made its way to your inbox, be on the lookout for it if you are a user. Slick perpetrators are sending out emails with a bill for you to send PayPal funds to a vendor for recent purchases - usually very expensive ones. If you do so, many more invoices could be paid from your account. Do not open the mail. Inform PayPal of what you received ASAP. In this vacation season, some travelers who book reservations from online sources have been left with no reservations but your money is gone and the ad placer has disappeared, leaving you with no lodging. Report the scam (or an attempt) to your ISP and The Better Business Bureau. Send messages to SPAM, too. Phone phishing scams want you to think they are "legitimate" in the message they are sending. Never send or respond to chain mail; send to SPAM. Phone calls: Hang up ASAP.

CANCER and THE YEAR AHEAD

Happy Birthday, Cancer! As the emotional first Water Sun Sign in the Zodiac lineup, you have the Moon as the natural ruler of the 4th House of home and family, people who live with you, foundations, and the heart of domestic activity, what your home's vibration feels like, base of operations, household matters including decorating, design, renovation, and real estate; mother and sometimes father, your sixth sense, gardening, landscaping or plants, and your emotional temperature along with how you respond to others' plights. This section of the chart highlights parts of your life and personality that describe how you interact with family members, work through issues, and solve related problems; what you like to do around the house; people you connect with in the home; how you prepare meals and what you eat; cooking skills and kitchen equipment. Yes, you are in love with your oven and enjoy expressing love via making favorite treats in the kitchen for your family. A number of Cancers are natural chefs and enjoy cooking. In contrast, some Cancers claim they can count on one hand how often they use the oven in a given year. When Cancers have a kitchen located in the front of the house, not the best Feng Shui position, they are prone to eating out frequently. Born under the sign of the Crab, you are both a water sign and the second action-oriented Cardinal sign fulfilling your mission to explore and share the depth of your feelings that may be repressed due to shyness or stemming from emotional wounding. Look at your Moon ruler and its house location and sign in your chart, and you'll recognize how your personality manifests. Meticulous work habits aid you in fulfilling goals. Be aware of what makes you unusually sensitive. Shyer Cancers might crawl into your shell to avoid confrontations or admitting how much you are hurting from the toxic people who stifle you. Many will try. They often know when a person really does not like them, even if they keep this knowledge to themselves. An excellent memory is one of your most treasured assets. **This year the Sun enters Cancer on June 20 at 10:42 PM EDT and leaves on July 22 at 9:29 AM EDT.**

As your birthday year gets underway, only one planet is in retrograde motion - Pluto in Aquarius. That pattern is about to change in July with first Neptune, then Saturn, and then Mercury going retrograde. Sign changes are afoot, too. The New Moon in Cancer occurs on June 28 at 6:32 AM in your solar 1st house giving you several upbeat moments **Mercury in Leo goes retrograde on July 18 to August 11 at 3:30 AM EDT.** If you can, put off starting new projects until the communicator planet goes direct in August. For some of you, a vacation will help you chill and add relaxing moments to your life after a high energy period that has you jumping in many directions. Take the time to finish already started tasks, return phone calls, and catch up on personal correspondence.

Venus in Taurus starts off your cycle in the sign of tactile gestures and sensuality. Venus enjoys romance and may find it in the company of chatty Gemini by June 6 where it settles for the rest of the month enjoying entertainment, humor, hard belly laughs, and more spontaneity than usual before moving to your sign in August. **Mars just entered Virgo and stays the course for your entire birthday cycle in this sign of practical outlooks, stress-free decision making, and analytical thinking.** Get busy with checkbook updating, fiscal management, paying bills, and debt reduction to pare down credit card spending or get rid of big ticket items that you recently accumulated. Take time to enjoy some sumptuous meals and sinful desserts. **Jupiter is the larger than life planet that dominates areas where you feel adventurous, enthusiastic, generous, powerful, prosperous, and ready for travel. This year, on**

June 9 at 5:02 PM EDT Jupiter entered your sign and occupies your solar 2nd house of income, money you earn, net worth, salary, self-development and further education, and what you value. As we enter your Sun sign territory take note that Jupiter's 2025 retrograde period starts on November 11 and moves direct on March 10, 2026, remaining in your sign until June 30, 2026, when it enters Leo for the next year. You will have several prosperous months to increase your holdings, develop creative plans, stimulate your cash flow, apply for job promotions, turn options into a valuable enterprise, find the career satisfaction you desire, and exude confidence in your prosperity outlook and in cherished relationships. What a gift! The planet of optimism presents new options for realizing your dreams and planning for the life you want in 2025 and beyond. Your desire for riches and prosperity manifest via the powerful visions you hold inside. Those of you born June 20-July 18 feel the impact of Jupiter in Cancer at various times this year and during the first six months of 2026. Be aware that you are likely to deal with schedule changes, new associations, an altered work environment, travel plans, and budget shifts. Take the time to assess conditions, make adjustments, and enjoy new direction that comes your way. Focus on healing from emotional, physical, and financial challenges. Stay alert to options that allow you to help others, accept gifts or benefits from others, take a chance on the lottery, and improve the Big Picture. Be grateful for windfalls that come your way. All Cancers will benefit from Jupiter's journey through your sign while it tours your space during the year ahead. Take a much-deserved vacation if that is in the cards; heal from pain or illness, enjoy the new people that enter your life. Charge your batteries. The summer solstice occurs on Friday, June 20. Simultaneously, Mars just moved to Virgo and is very energizing for you, allowing you to clear the slate via top-notch work planning. You will be glad you did so that you can take the vacation you have set your sights on before additional planets turn retrograde. Canada Day is July 1. You'll hear from personal contacts, relatives, and colleagues early in the month. Enjoy blessings during the coming year. Saturn occupies early Aries for several months this year and most affects you if you are born June 20-22 during June through August. On July 12, Saturn turns retrograde in Aries and travels back into Pisces where it finishes out the year, turning direct on November 27 in your solar 9th House. Saturn is in the company of transiting Neptune in Pisces in this house which will be joined by the second lunar eclipse of the year on September 7 at 15° 23'. This house provides clues about which aspects of education, foreign relations, legal matters, religion, philosophy, people at a distance, sabbaticals, long distance travel, writing and publishing interests need work over the next year. Cancers born July 25-29 will see the greatest impact when Saturn returns to Pisces through February 13, 2026. Saturn is likely to place restrictions on the amount you have to spend on travel and vacations, and possibly education. Be aware of rising costs. If you had a recent job change to a new location, new norms and operating protocols may alter your work dynamic. Conditions could be very challenging and demanding. With Jupiter in your sign, add new skills to your credentials through formal or online courses. If you're planning to accomplish new goals, develop a workable strategy, either eliminating what you don't want or developing goals related to a healthier and more financially stable work environment. Reorganize priorities at home and at work. Be patient yet objective and work with experts if you need assistance. Schedule leisure time and enjoy social activities when Saturn joins Neptune in this house from June through August. Keep your astrologer, attorney, advisors, and subject matter specialists on speed dial to address critical situations as they occur. **Uranus in Taurus travels through your Solar**

11th House of associations, friendships, groups, organizations, goals, hopes and wishes. This transit started here in 2018 and is racing toward the finish line on April 25, 2026. Your year started out with Uranus retrograde and moved direct on January 30. Cancers born July 14-22 will see the most activity in 2025 related to long-term career, personal, and professional goals while Uranus is in Taurus. You probably had to work through delays in executing plans earlier this year or had to wait for funding to begin a new enterprise. Uranus changes signs during your birthday cycle when it moves to Gemini on July 7 spending 4 months in your solar 12th house of behind-the-scenes activity, goes retrograde on September 6 EDT, returns to Taurus on November 9 while still retrograde, and finally turns direct in Taurus on February 3, 2026. Show independence in making choices, assessing memberships in associations, groups, and friendships, and expanding contacts. Pursue inspiring and positive relationships, follow your cherished dreams and use your skills to showcase your strengths. Jupiter's move to Cancer on June 9 helps you build solid plans based on your outstanding performance and commitment to growth. Note the rising cost of goods and services that affect personal and business travel. Learn to do more with less by revamping your budget. Go with the flow because Uranus transits may abruptly demand action. Money disagreements are more quickly resolved with your employer's involvement in securing funds for expansion. Those of you born with planets in the 12th and 1st houses may see more activity in the next year, especially if you are born June 20-24 through November 9, and July 27-30 through February 3, 2026. Enjoy the benefits of the unpredictable and spontaneous Uranus energy. Analyze choices and assess how they fit your values. Practice yoga, deep breathing, meditation, and exercise to stay calm, lower your blood pressure, and create clearer space. Focus on cherished goals. **Neptune moved to Aries in your solar 10th House on March 31 in a friction driven angle to your water sign Sun in Cancer. Neptune has more to do in Pisces but turns retrograde on July 4 through December 10, 2025, returning to Pisces on October 22 where it remains through the end of 2025 and into early March 2026 before moving into Aries through 2039.** Your solar 9th House of the higher mind, advanced education, journalism, accelerated business plans, foreigners, medical and legal specialists, politics, publishing, in-laws, long-distance travel, and spirituality got a hard workout for over 13 years. This year's transits are especially meaningful to those of you born June 20-23 with planets at 0-3 degrees of Cancer that spark tension with the early degrees of Neptune in Aries. Early this year planets from 27-30 degrees of Cancer received positive vibes when Neptune was in Pisces highlighting life's deeper spiritual and philosophical perspectives. Cancers enjoy getaways to water destinations, beaches, lakes, or cruises, and will eagerly pack their bags when it's safe to travel and intuitive vibes validate the adventure. Enjoy water venues, sharing seaside meals, boat trips, or dramatic waterfall settings attract you. Many of you benefitted from much-delayed reunions with relatives, schoolmates, soul mates, and long lost friends that took place through March. Now transiting Neptune gives your career and life status a workout introducing new challenges and opening up inspiring new directions. The primary benefit of this Neptune transit accelerates psychic and intuitive insight into your ambition, work authorities, organizations, and passion for what you do to earn your income. Pay attention to opportunities that are coming your way. Reflect on goals and life status. Let go of energy drains and individuals who don't understand your mindset. Use professional guidance to pursue career, family, and lifestyle matters. Develop proposals that provide better strategies for your boss to implement changes in your work place. **Pluto started off 2025 direct in motion in its new home in Aquarius. On May 4, the dwarf planet of**

transformation turned retrograde and will remain so through October 13, 2025, occupying your solar 8th house of joint income, mutual debt, mortgages, financial security, sex appeal and physical chemistry, and all manners of births, rebirths, and sudden events. This humanitarian yet analytical sign continues its long journey in Aquarius through 2043. This year Pluto in Aquarius connects with Cancers born June 20-23 in your solar 8th House, occupying 0-3 degrees of Aquarius. Make changes that bring better financial outcomes, reduce debt, and strengthen your budget. Learn all you can about new people entering your life as well as those already present. Challenges involve shared intimacy, roles, and responsibilities. The karma cleaners are here to wrap up loose ends associated with 8th house Pluto matters and will focus on related issues that emerge. Enjoy the freedom that comes with resolving fiscal dilemmas. Let go of the angst. Assess the value of actions you have recently implemented and feel the relief of knowing you are finally free. The regeneration factor of Pluto encourages you to heal and embrace satisfying solutions. If you are a Cancer born with the Sun and some planets in the other Cardinal signs, Capricorn, Libra, or Aries from the 0 to 3 degrees, you will experience clear insight when Pluto's challenging aspects occur during the year. Check with your astrologer to understand the conditions evolving in the 8th house of your chart when **Pluto in Aquarius makes aspects**. Attract positive attention, enjoy a stronger financial picture, pay off debt, and treasure what you feel inside. Enjoy the inner peace that warms your soul. Build fun into every week for balance. Pluto goes direct on October 13, 2025.

This Year's Eclipses affect you as follows: Four eclipses affect you in 2025 - 2 solar and 2 lunar eclipses that create tension in air, fire, and water signs. Two eclipses took place before your 2025 birthday, the first on March 14/13 at 2:55 AM EDT in Virgo at 23° 18' 57', a lunar eclipse in your solar 3rd House. Here you took a deep look at the state of your mind, how you are processing information, the state of your neighborhood, relationships with siblings, cousins, neighbors, and individuals with whom you have contracts. You'll look at education, self-development, travel over short distances, and computer technology, telephones, and security systems. The second eclipse occurred on March 29, the first solar eclipse of 2025 at 6:58 AM in Aries, 9° 00' ahead of your birthday cycle in your solar 10th house. With Neptune in Aries in the 10th house, changes are in the wind in your career arena. The houses to keep an eye on in the year ahead are your solar 3rd house, 10th house, 9th House, and 3rd house in that order through your 2025 birthday cycle. If a new job is on the horizon, start networking and preparing your well-polished resume. Those with planets in your 3rd or 10th houses may be starting a new business this year, freelancing, working diverse hours, or taking on temporary employment. Take a balanced break if making a job change is in your plans. Adjust the non-stop intensity of your work schedule and balance your life with quality work breaks, recreation, exercise, and entertainment. Those with planets in the 9th house may prefer to travel more to distant locations or to take a temporary assignment in a long-distance location. You'll be drawn in to details of proposed changes in your workplace revolving around the theme of efficiency especially if you are a government employee. Sound familiar? Bosses in some circles are already taking action to reinforce or modify work practices, manage timelines, cutback on the number of employees, or downsize staff. For greatest success, be a good listener and ask for feedback and suggestions. Talk with trusted mentors. Highlight organizational goals and stay calm and flexible to modify the environment for a new picture that emerges in 2025 and beyond. The year's final lunar eclipse takes place in Pisces on September 7 at 15° 23' in your solar 9th

House of in-laws, higher education, long-distance travel, moving to a new location, politics, and philosophy. This house was overwhelmed last year with Saturn and Neptune in Pisces. Actions initiated then could be coming to fruition now. Neptune has already moved to Aries, and Saturn moved to Aries on May 24. Getting crowded in here! If you were born around July 10-13, develop some solid goals, let go of projects that have little steam left in them, and interact with trusted networks to find your next stimulating challenge. Steer clear of individuals who can't back up their claims. Make time for recreation, exercise, and enjoyment. Note that **September 21 is the date of the final Solar Eclipse of 2025 which occurs in Virgo at 29° 04' in your Solar 3rd House of mental agility, communication, neighbors, cousins, siblings, and contract partners.** Eclipses unfold in cycles involving all twelve signs of the Zodiac and usually occur in pairs about two weeks apart. Never fear them, consider them opportunities for growth that allow you to release stuck patterns. Be tuned in to people affiliated with this house that could prove very influential to your undertakings. Prepare yourself to make changes before finalizing plans. Some Cancers could find a partner if the perfect person comes along while you are traveling or on a temporary work assignment. Look at your chart pattern. Writers among you may develop materials for companies, books, user manuals, diverse publications, or write a novel. Look for workable solutions when differences occur. Manifest wins, enjoy fun and games, and energize your social calendar with gratifying rewards. **The first solar eclipse of 2026 that falls during your current birthday cycle occurs on February 17, 2026, in your solar 8th house of financial investments, money you owe, joint income and debt, in Aquarius 28° 56' at 7:13 AM EST.** Based on what you discovered over the past year, you are learning to trust your intuition more and jump into finding solutions more easily. What risks are you willing to take to achieve your goals? Be sure to check the validity of financial offers you are receiving and be especially attentive to calls regarding property sales or improvements. Follow your intuition.

The total lunar eclipse of 2026 occurs on March 3, 2026, during your 2025 birthday cycle in Virgo 12° 51', at 2:26 AM EDT in your solar third house of communication, contracts, local travel, neighbors, siblings, cousins, electronic equipment, and types of transportation. Any ongoing issues will receive strong attention if the eclipse makes aspects to planets or points in this house and to your personal planets. Maintain an aura of good will that welcomes harmonious dialog with all who interact with you. This section may apply also to individuals with Cancer on the Ascendant or in part to those with multiple Cancer planets including the Moon.

THE PLANETS' ACTIVITY JUNE 20-July 22, 2025

The Summer Solstice occurs on June 20 at 10:42 PM EDT, the longest day of the year. The Moon is in Taurus on the 20th, and the New Moon in Cancer occurs on June 25. Enjoy the stimulating energy of the first weekend of summer which makes chores seem like a piece of cake and fun seem like it is yours for the taking. Mars in Virgo works in your favor energizing accomplishments and adventure. **Mercury the messenger planet is in Cancer through the 27th and moves quickly to reach passionate Leo by late night on June 27th, where it resides for the remainder of the Cancer cycle.** Mercury will turn retrograde in Leo on July 18 EDT and resume direct motion on August 11, at 3:30 AM EDT. The week of June 30-July 6 indicates exciting, romantic dynamics that sweep you into the holiday celebrations, and for single Cancers can be the beginning of love. Four planets will be retrograde in the heavens in July - Mercury, Saturn, Neptune, and Pluto. Finish work on pending projects to free up time for fun. **Venus starts the Cancer cycle in Taurus and moves into Gemini on July 4 where the communicator sign shows its sparkly personality and enthusiasm for adding humor to conversations and casual chats. Keep a positive outlook on matters of interest and contribute to socially stimulating debates through the end of the Cancer cycle.** June 26 is a perfect day to generate novel ideas and find strong camaraderie with teammates who hit ideas out of the park that stimulate actions that are perfect for accelerating completion of a project. **Mars starts off this cycle in practical, efficiency driven Virgo throughout the entire Cancer cycle and the first few days of August. Mars can be very productive in an earth sign this month and may tempt you to postpone the start of your vacation.** Identify where Taurus, Gemini, and Cancer reside in your natal chart and schedule favorite events to get you ready for recreation, adventure, and feel-good energy instead of digging yourself out of a rut. Celebrations are promising the weekend after the 4th. Some of you may be on vacation or will be finalizing plans. Cooperation pays off with family and friends. Enjoy the harmony. **Jupiter is in Cancer during this cycle and most affects Cancers born June 20--July 22, Virgos born August 23-September 22, Scorpios born October 23-November 22, and Pisces born February 19-March 20. Jupiter will oppose the Suns of Capricorns born December 22-January 19.** Aspects for Leo, Libra, and Sagittarius signs are mixed depending on chart placement; stress is possible especially for cardinal air and fire signs. Stay present with your creativity, humor, and analytical ability. Enjoy artistic expression, entertainment, and music. Let your profound intuition help you analyze facts carefully before making decisions. **Saturn in Aries turns retrograde on July 13 EDT and will remain retrograde through November 27 even though the retrograde sends the industrious planet back into Pisces on September 2. This month the planet of responsibility stations on the 1st degree of Aries as it moves into retrograde motion and most affects those of you born March 22-23 (conjunction), May 21-22 (sextile aspect), July 23-24 (trine), September 23-24 (the opposition aspect) and November 22-23 (trine). Saturn challenges water sign Cancer (square), and earth sign Capricorn (square) and air sign Libra (opposition).** If you are born 0-1 degree of any of these signs or with Sun, Moon, or planets at 0-1 degrees of these signs, you feel the effects if you are a member of these signs and have planets on these degrees. Focus on

challenges and trouble spots. Find workable solutions to alleviate stress. Foster cooperation and use logic rather than a biting tongue when discussing difficulties from mid-July through the end of the Cancer period. Share intuitive insight in sensitive dealings.

Uranus in Gemini as of July 7 travels over 0 degrees of Gemini this month and in early August brings spontaneous energy when the Mars square stimulates Uranus during this period and moves you to take action by concentrating on a new project or bringing an unplanned opportunity your way. Individuals born with planets at 29 degrees of Taurus born May 20 are most affected now as are Aquarians born February 18, Leos born August 22, and Scorpios born November 22 with Uranus in hard aspect to your Suns. Release any lingering anger related to current areas of difficulty with others or with life circumstances. Let go of emotional frustration and a rebellious feeling either within you or from how you feel about those in your circle. Those of you with planets at 0 degrees of Gemini, Leo, Libra, Sagittarius, and Aquarius are able to cultivate a celebratory outlook to plan enjoyable summer getaways. The full moon in Capricorn occurs on July 10 inconjunct Mercury in Leo and trine Mars in Virgo. Boost your mood letting optimism and enthusiasm electrify your body, your appearance, and your attitude. Plan a shopping trip to purchase summer clothing and outdoor furniture bargains on sale. Stimulate your growing self-confidence. Uranus in Gemini harmonizes well with fire and air signs individuals born with planets at 0-1 degrees of their signs this month. Share the bounty with those less fortunate. Uranus in Gemini is retrograde from September 6, 2025, through February 3, 2026. Uranus returns to Taurus on November 7, 2025, and finally leaves Taurus on April 25, 2026. **Neptune goes retrograde on July 4 at 2 degrees 11 minutes in Aries and goes direct on December 10 at 29 degrees 11 minutes Pisces. Those born March 21-22 feel this movement the strongest; also affected positively are Aries, Leos, Libras, Sagittarius, and Aquarius born with planets around 2-3 degrees of their signs.** If you are a Pisces, Taurus, Cancer, Virgo, Scorpio, or Capricorn, born with planets at 29 degrees of your sign, the return to Neptune in Pisces will be a powerful transit. Take extra precautions when signing legal papers, leases, wills, or when negotiating agreements, beginning new health treatments, or entering new relationships or partnerships. Check details of tempting proposals. Monitor phone calls from unknown sources to protect personal information from scam artists, phishing schemes, and unwanted robocallers. You could feel loved and cherished when Neptune makes a romantic aspect to Saturn and Pluto in mid-July. Psychic insight accelerates during this month. Frequent memorable dreaming could occur. Be sure to record details of your dreams. **Pluto in Aquarius turned retrograde on May 4 at 3-2 degrees during late June and mid-July through the end of the Cancer cycle. Check the house where Pluto resides in your chart for insight into any blocks you may be ignoring. Pluto goes direct on October 13 at 1° 22'.** Pluto is good at tackling deep critical matters and may help you face truths about you and others you may be ignoring. When you get those “aha” moments, process them instead of dodging them. Picture a stable life shaping up to bring you much more happiness and optimism. Welcome new energy. **Chiron in Aries is direct at 26-27 degrees during the entire Cancer cycle. During the current period it affects the charts of Aries born April 15-18 while challenging you to address inner pain, hidden dilemmas, and make choices for viable solutions.** If you still have old stuff creating painful memories, embrace a worry-free state of mind. Clear drama and trauma from your environment so that you can shed old wounds and leave the stress behind. What is it you most desire to live a fulfilling life? Visualize your dream and

start replacing the painful memories with your fondest desires. Summon healing waves of energy to soothe your soul. Aries deeply loves freedom. Open your heart to accommodate newfound peace and joy.

Unrest in Congress continues as members (and U.S. citizens) are divided over the threat of war in the Middle East, escalating prices, conflicting policies, lack of humanitarian treatment of immigrants, outstanding tariffs, DOGE staffers spreading misinformation about Social Security, job losses in critical government agencies, and the sorry state of medical protection under Robert Kennedy's lack of experience. Thank you for sharing how you are getting through challenging times. Continue to cope, find ways to do your work, and bond with family members and friends. Let's manifest a peaceful Nation to grow and value our citizens. Invest in the future for the greater good of the country. Stay safe.

Her natal chart shows planets and placements in Virgo, Libra, Scorpio, Sagittarius, Capricorn, Pisces, Chiron in Aries (right now transiting Saturn and Neptune are directly on this asteroid of healing), Taurus, and Leo. Her chart reflects excellent organizing skills, high energy, love of travel and a flair for expressing individuality. Tributes have been pouring in for Anne who was an American Chef, TV Personality, and instructor at The Culinary Institute of America. Her sudden death on June 17, in NYC, stunned her legions of fans and colleagues on The Food Network. Anne was a graduate of The Culinary Institute of America, Canisius College in Buffalo with a BA in English and Communications, and the Italian Culinary Institute for Foreigners. Anne was found unresponsive and unconscious in her home on the morning of June 17 by her husband, Stuart Claxton. No doubt you have seen Anne in several television shows: Secrets of a Restaurant Chef, Best Thing I Ever Ate, Iron Chef America, Worst Cooks in America, and Chopped All-Stars Tournament. Anne worked at La Bottega del '30 in Tuscany, Italy and later opened her own restaurant, Phil & Anne's Good Time Lounge in 2017. She had previous stints at Centro Vinoteca, Savoy, and Felidia. Brian Wilson was an American musician, songwriter, singer, and record producer who co-founded the Beach Boys and had a flair for genius in how he managed pop composition and masterful recording techniques. Brian was born on June 20, 1942, in Inglewood, CA, and died June 11, 2025, of dementia after being placed in a conservatorship over a year ago. He battled mental health issues and drug addiction. His natal chart shows his passionate love of music, talent for writing, versatility, mastery of voice and the written word, love of family, unique skills in performance originality, and an amazing sense of humor. His surviving bandmates were supportive and complimentary to the end in giving Brian credit for his outstanding musical creativity. What a beautiful portfolio Brian and The Beachboys left for posterity. Thank you, Brian. Rest in Peace.

READERS' CORNER

Readers wrote that they were very interested in the segment I wrote for last month's column that covered Feng Shui in the office. Thank you for the feedback and comments you sent during the past month. Many readers wrote to say how much they enjoyed that column and asked for more, so I am including a question from a reader regarding bedroom arrangements. I will periodically cover Feng Shui in this column. I appreciate your feedback on the Gemini issue and welcome your thoughts on this one. Follow me at www.astrologyondemand.com for monthly blogs. This Newsletter posts on Facebook and LinkedIn, so look for it there as well.

Q. I am a Cancer born July 9. I have never been comfortable with the arrangements in my bedroom and often get headaches or a stiff neck. What changes should I make to get a better night's sleep and enjoy my room again?

A. Cancer is a very sensitive sign. If room arrangements are uncomfortable, a sleepless night is often the result. I communicated with this reader to find out more about the room's layout. Here are my comments: Your bedroom door opens to a large screen TV on the widest wall, the wall that would be the ideal one for placing your bed. Instead your bed is situated next to the room's entry door. A bed should always be placed so that you can easily see who is entering the room (safety). If you place your bed on the large wall, and the TV on the wall next to the door, you will have a much better space for organizing the room for comfort. You will be able to see the door and the TV easily. (Feng Shui is not a huge supporter of TV energy in the bedroom. Most people have them these days so judicious placement is wise and minimizes discomfort.) You mentioned the headaches and stiff neck. You have a fan placed directly above the head space over your bed. That is too close for comfort and can give you a headache especially if you use the fan. Even if your fan is not turned on, the blades of the fan may be positioned so that they are cutting across your neck. Move the fan to the center of the ceiling. Never let the air blow directly on you while sleeping. The same thing would happen if you place wood beams in the bedroom ceiling. Don't place piles of books on tables, especially those on either side of your bed - too claustrophobic. Get rid of clutter and keep knickknacks to a minimum. Never place your bed in front of a window. Use a solid wall to maximize comfort. Place a comfortable chair in one corner of the bedroom for reading. Finally, if you have an ensuite master bathroom, don't locate a toilet behind the bed from the adjoining room. Too much noise via flushing can be disruptive. Make these changes and watch your sleep quality accelerate.
