October 12: Indigenous People's Day, Thanksgiving in Canada, Columbus Day

LIBRA'S BIRTHDAY HIGHLIGHTS: Happy Birthday, Libra! After starting your birthday cycle year with the recent solar eclipse in Leo on August 12 in your solar eleventh house, and the last full moon eclipse of 2026 in Pisces in your solar 6th house of daily routines on August 28/27EDT, you'll have new group and personal relationships and work colleagues entering your life for the rest of 2026 and through most of 2027. Social and work patterns develop and add stimulating dynamics to the way you spend your time and work through established procedures. Some new sun signs enter your life - get to know the newcomers. Your sun sign is in high focus this month. Your solar first, seventh, twelfth, and sixth houses will dominate. Eclipses in your solar sixth house call attention to important projects, energy level and any challenges you are managing at this time. Keep your gift of optimism handy and look for the best as you welcome change. Partners in business or romance may have been prominent this year and will remain dominant for the rest of 2026 and 2027. Libra is the second air sign in the Zodiac with love Goddess Venus ruling your sign.

Partnership-oriented Libras strongly identify with the 7th House of romantic, business, and professional connections, roommates, the public in general, advisors, counselors, diplomats, doctors, lawyers, recruiters, other experts, and your shadow self. Many Libras embrace careers that make use of excellent communication skills, as well as social, mediation, and diplomatic skills where you thrive on providing courteous, thoughtful service to clients, customers, and networks. Organizing events such as fundraisers, or social functions like dances or proms are your forte. You love order and prefer that all tasks come together instead of falling apart and dislike upsetting surprises when plans dissolve. With creativity and artistic talent, you enjoy pursuits involving the use of hands. Your sign either devotes a huge amount of time on the Internet or avoids media outlets restricting most participation in Web communications. You value information exchange and spend a great deal of time on the telephone or texting. Most Air signs relish timesaving devices buying the latest equipment to remain tech savvy, upgrading your Smart phone with the latest APPS and desirable features. Many Libras are super-sensitive when criticized for their flaws, blocking out messages instead of absorbing the context or asking questions to gain clarity instead of judging others' actions negatively and reporting incorrect information. Ironically, some of your best analytical prowess comes to life when you listen to what others say and help them work through difficult problems. In the 2026-27 cycle, keep relationships harmonious. Perfect careers for many of you include the field of artistic expression, communicating, consulting, coaching, design, instruction, management, mediating, medicine, psychology, sales, servicing client needs, and teaching. You shine when absorbing unique information to build new skills that highlight your best qualities. Improve task management by working on creative avoidance, indecision, or procrastination. Solve relationship issues that involve others' feelings. Examine your personal biases. Eliminate tension via stress management and exercise. Libra rules the kidneys, pancreas, lower back, and urethra. This year the Sun enters your sign on September 22 at 8:05 PM EDT and leaves on October 23 at 5:38 AM EDT.

Mercury is in Libra through September 30th when it moves to Scorpio and then turns retrograde on October 24. While in Libra connect with partners and close friends or business contacts. The week of September 21 you get a burst of creative self-confidence. Pace yourself with whatever tasks or projects you take on to avoid burnout. The Sun moves to your sign on September 23. Dating works for single Libras during this period. **Venus moved to Scorpio on September 10 also the date of the Virgo New Moon. Make your wishes for an abundant display of prosperity and good**

will. The planet of love will turn retrograde on October 3 and will remain in apparent backward motion for the rest of your Sun Sign period, moving direct on November 13. People you run into could be emotionally volatile at this time. Tread carefully if you spot others acting out of sorts or impulsive. Minimize tension and don't overspend on luxury items now. Schedule surgery after the retrograde ends. **Jupiter started the year in Cancer, in your solar 10th House of career and authority matters, ambition, and parents. Be on the lookout for vendors overpricing their goods, products or services.** The full Moon in Aries on the 26th may expose lies uncovered after a close confidant shows reasons to distrust loyalty in light of confusing revelations. Postpone having serious discussions with your employer regarding job advancement until after mid-November. You could learn more about unfolding company plans that could make your talents valuable to the organization and bring success to your business assets. Those of you born September 28-October 11 could see the most activity in this cycle which shifts from too much control and authoritarianism to an emphasis on use of individuality and unconventional management. Jupiter advanced to Leo on June 30. Jupiter will be retrograde from December 12 through April 12, 2027, in your solar 11th House of groups, professional organizations, and leadership. Enjoy cultivating new associations and get involved in humanitarian enterprises. You'll be glad you did.

Saturn in Aries moved to your solar 7th house through its cycle in this Mars-ruled sign and will spend a 2-1/2-year cycle in your solar 7th House of business and personal partners, roommates, collaborators, consultants, astrologers and public enemies. In 2026 Saturn is retrograde from July 26-December 10, 2026. Those of you born September 23 through October 24, feel the aspects during this period. **Make an allowance for Saturn's retrograde run. Face any delays knowing that they are temporary barriers in your life in Aries and could involve diverse partnerships. Some of the immediate pleasant days that could be more productive are September 30-October 1.** Address the changes that lie ahead. Develop a plan so personal and business relationships run smoothly for you, you feel healthier, and you get along better with your close connections. Saturn continues in Aries through 2026 and 2027. **Those of you born on the dates listed above will feel the most impact in the remaining months with a challenging opposition aspect to your Sun.** Hang in there because flexibility works best in light of making necessary adjustments. Changes may be unpredictable, but you will sharpen your relationship skills. Double check facts and ongoing communication. Share goals with your partners and your team, especially if you supervise staff. **Uranus in Taurus completed its 7-year cycle on April 25, 2026, when the planet of the unexpected moved into Gemini through May 22, 2033, as a result of retrograde movement and a brief run in Cancer from August 3, 2032, through December 12, 2032. Uranus will be in trine aspect to many Libras during this long 7-8-year transit.** The next retrograde cycle in Gemini runs from September 10, 2026-February 8, 2027. Note the house where Uranus is currently transiting in your chart. Expect unplanned activity, some chaos, or mix-ups in scheduling and completion of plans. Uranus in Gemini, stations at 5 degrees of the sign through October 22 and continues on its retrograde journey dropping all the way back to 1 degree of the sign before stepping forward in February. Note where disruptions most occur and work on solutions so that you get through the chaos with a minimum of damage. Your solar 9th house of long-distance travel, spirituality, foreigners, politics, and in-laws has the most action in this cycle. Stay healthy to maintain your stamina. It takes Uranus 7 years to go through a sign, so each Libra will get a turn one way or the other to deal with matters in the natal house where it currently resides. Get ready for

unexpected disclosures and hidden agendas. Take the time to analyze facts and clarify confusing information by asking relevant questions. This transit is powerful for those of you born September 23-28. Release toxic relationships, travel, and work on healing your spirit. Be objective regarding others' unsettling behavior by seeking joint advice to sort out the differences. Use this time to settle estate matters for family members, adjust your will, and analyze investments and retirement accounts. **Neptune in Pisces concluded its run on January 26 when it moved to Aries even though it made an initial appearance in Aries in 2025. The mystical planet will visit your solar 7th house of personal and business partners through March 23, 2039, a 14-year run, forming an opposition aspect to your solar first house. Be prepared to cope with health aspects related to Neptune energy if you are born during the first few days of Libra. Neptune's current retrograde cycle runs from July 7-December 12, 2026.** Work on relationship matters during this time to clear up misunderstandings and rekindle romance or strong business relationships if they have soured. Identify confusing issues connected with this house that have become tedious and in need of healing over the past year. This stress-inducing aspect alters your insight and the context of your partnerships including people in it. No doubt you have been subjected to many odd messages, or confusion over the direction they are taking, even where (location) you will be performing your work. Consider the stress of others if you supervise staff and deal with the reactions of workmates and colleagues if conditions affect job stability. What is going on now? Neptune stimulates your mind making you more psychic than ever. You just "know" things. Saturn entered your health and work environment in Pisces last year and could be very lively, especially since this year's final lunar eclipse occurred in Pisces on August 28, a busy house for you. If you are undergoing treatment for an illness, look for any changes in your condition, an altered diagnosis, or medications that need adjustment. Check for allergic reactions and be sure to inform medical practitioners who may be baffled, a strongly Neptunian phenomenon. Obtain a second opinion and clarify the cost of surgery or treatment to make sure you have insurance coverage. Neptune in this house natally or by transit can trigger allergic reactions to medications or the environment. Challenges lead to change and scheduling adjustments occur. Enrolling in classes could give you a competitive edge in the job market if you want to make a change. Limit daydreaming or you won't be able to keep up with your workload. If you have germophobia tendencies, take heed. Keep out of Neptune's foggy environment and clarify incoming information. Sift through Artificial Intelligence (AI) to avoid traps or unwanted connections. Seek personal satisfaction. When Neptune passes through the 6th House, you could be romantically attracted to eligible co-workers or collaborators. Do these attractions compatibly meet your emotional needs? Get a professional opinion on your natal chart comparisons to validate your feelings and get to know romantic prospects well. **Currently, Pluto in Aquarius is in retrograde motion in your solar 5th house of romance, children, vacations, and social gatherings, and moves direct on October 15 at 3 degrees of Aquarius. This position meshes with Libras born September 25-2-27 and is in effect through December 19, 2026, when Pluto returns to 3 degrees of Aquarius for a couple of months and remains in this sign until 2043. Pluto reaches deep within you to help you see sensitive matter clearly while you release old fears. You have a number of years to release accumulated baggage and can removed any lingering problems while this stubborn planet transits your solar 5th house of romance, children, entrepreneurial enterprises, risk-taking, sports, and adventure. Examine existing conditions. What surfaces? Tackle that first. What is affecting family relationships?. How does Pluto in Aquarius box you in from late September to**

December 2026? Look for ways to successfully release blocks. Pluto creates conditions that allow you to manage your fears. Face these stress-givers. Check current reality for hints to early Libras about how the regenerative planet will behave in your solar 5th house. Pluto in Aquarius leaves 2026 at 4 degrees of the sign and covers 5-7 degrees in 2027. Work on healing your soul. Pluto helps you let go. Celebrate rebirth harmoniously.

Eclipses last from 6 months to a year while their influence unfolds. Four eclipses already occurred in 2026. **The first solar eclipse of 2026 took place on February 17 in Aquarius at 28° ♊ 50' at 7:01 AM EDT in your solar fifth house of adventure, amusements, children, fitness, romance, risk-taking, social events, sports, and vacations.** This house will be very active in 2027 as well and the two dates that stand out now are February 17 and February 6 in 2027 because of the eclipse energy. Maintain the exercise program you started. If you are dropping weight, you may be investing in a new wardrobe; some of you meet new partners; others start a business or new career. **Two weeks later, the first lunar eclipse of 2026 occurred in Virgo on March 3 at 10:38 AM, at 12° ♍ 54' in your solar 12th House of healing, seclusion, planning changes behind the scenes, hospital visiting, and psychic phenomena.** You have gained greater insight into those you cherish, admire, or with whom you work. Seek input from key players. Communicate clearly and openly to identify any blocks that stand in the way of unity and harmony in relationships. Libras born September 4-6 were most affected. **The second solar eclipse of 2026 occurred on August 12 in Leo at 20° ♌ 02' in your solar eleventh house of groups, associations, friendships, memberships, and work projects dealing with humanitarian themes. Find enterprises that facilitate efficiency.** Energizing and invigorating vibes surrounded you to help you understand more about your value to employers and professional networks. Those of you born September 19-21 felt the greatest influence of this eclipse. Others enjoy your talent and personality. Do something about areas that have been mismanaged and need restructuring. Address performance shortfalls as well. Be sensitive toward the contributions of team members and unify morale by recognizing their talents. The next year is action-filled. **The final lunar eclipse of 2026 occurred on August 28/27 in Pisces in your solar 6th House in Pisces 4° ♓ 54' with an emphasis on your daily routine, habits related to fitness, nutrition, food preparation, small pets, and organizational expertise.** Those of you born September 27-29 feel the strongest vibes via pressure to keep your goals on track while you balance drive, creativity, and innovation. Seek the help of teachers and mentors that point you to new directions. Evaluate personal choices you made earlier in 2026 to improve your health, personal style, fitness, nutrition, and cooperation with co-workers. Work on your plans and process discoveries while you monitor progress. **Two more eclipses occur early in 2027. The first solar eclipse of 2027 takes place on February 6 at 17° ♊ 38' at 10:56 AM EST in your solar fifth house of adventure, amusements, children and their interests, entrepreneurial ventures, romance, risk-taking, socializing, sports and coaching, and vacations.** Which of these themes hits home with you? Do you see anything that makes sense to what you are experiencing at this time? How is your love life? If you have children, which ones are going through stressful experiences? The second eclipse of 2027 will be a lunar eclipse in Virgo at 2° ♍ 06' in your solar twelfth house of regrouping, recovery from illness or disappointments, visiting the sick, retreat, work you are doing behind the scenes, intuitive insight, and secrets. Be proud of accomplishments,

polish your skills, and earn the trust of your boss. If you are working on written material, allow enough time to proof-read and make changes to improve presentation. Share experiences with others to help them cope with personal setbacks. **This section may also relate strongly to those of you born with a Libra ascendant, Moon, or several planets in Libra. If your birthday or a planet falls on an eclipse degree, it is particularly powerful.** Showcase the talent you possess during this birthday year. Take classes to elevate competitiveness in the job market. If you are not married, this could be the year you exchange vows. Enjoy much deserved success.

SEPTEMBER 22-OCTOBER 23 PLANETS

As of September 1, two planets are retrograde in motion: Pluto which will turn direct on October 15, and Uranus which turned retrograde on September 10. The first to turn direct will be Pluto in early Aquarius. In the aftermath of the Pisces Full Moon lunar eclipse on August 28-27, the talk in many quarters is getting to the bottom of false narratives that are spreading like wildfire. Truth sets us free. Expect to hear all types of news and gossip that comes up out of the blue but will be difficult to prove. It looks like confessions of spreading lies will be a topic in the media and will include broadcasts and movies, or documentaries. **Mercury occupies two signs during this month:** wraps up the cycle in Libra, moves to Scorpio on October 1; moves retrograde in Scorpio on October 24, and moves direct in Scorpio on November 13, 2026. Work assignments escalate during the first few weeks of Libra's cycle; if it catches you off guard, the energy can be overwhelming. Make decisions late on the 30th or most of the day of the 1st. Avoid making decisions from 3:35 - 8:30 AM that morning. A wave of productivity hits and includes a creative cycle. September 29 may bring confusion so treat messages cautiously. If you have been seeking answers or solutions, prospects are high that you'll be rewarded after October 6. The 3rd and 4th favor collaboration and could be the perfect time for teambuilding with Venus in the sign of changing behavior patterns, Scorpio, that help members sort through credentials. **Mars moves at a slower pace in Cancer** and works compatibly with Venus in Scorpio during this entire cycle. Spend time catching up with chores, weekend errands, and attention to your lawn on Saturday morning so you can relax, enjoy romance, or attend a sports or entertainment venue over the weekend. Venus in Scorpio enjoys a compatible trine with Mars in Cancer before the passionate planet moves to Leo on September 27. A Grand Cross occurs with Mercury, Mars, and Pluto which stifles you on the 28th, indicating that you should avoid confrontational types through the 29th. Water planets aid you in finding common goals with those in

your circle. You have an appreciation for newfound compatibility that opens doors for refreshing entertainment venues. Over the next two weeks, research the job market if you're looking, and evaluate planned purchases. Return phone calls and gather goods for upcoming charitable donations. **Jupiter is in stable Leo throughout this cycle and stays direct in motion through December 12, a date with considerable planetary activity: Hanukkah ends, Neptune goes direct, and then Jupiter in Leo goes retrograde through April 12, 2027. Avoid pointless arguments the week of October 12. The early part of the week seems testy but by the time the 16-18 rolls around the mood gets support from a Grand Trine in fire signs (Mars, Saturn, and Neptune) and creativity and joviality return.** Single Libras may meet potential partners or collaborate with members of professional organizations to revitalize core goals. Those in existing relationships have a chance for romance or an opportunity to heal compatibility issues. Fill your calendar with invitations to parties, weddings, tailgate parties, or other special events. Order seasonal gifts by October 15 to avoid mail delays. Plan fall entertainment in nearby locations and enjoy the fun and spontaneity for the rest of 2026. **Saturn in Aries is retrograde during this cycle at 12-09 degrees of the sign. It has the most relevance to Aries born March 30-April 3, as well as for Libras born October 1-6. You will be managing opposition energy.** Minimize excessive complaining and enjoy peaceful surroundings through December 10 when Saturn moves direct again. Watch the tone of verbal exchanges and show sensitivity toward family and work colleagues. Those with the most to gain during this month are Aries, Gemini, Leo, and Sagittarius. Contact a charity and make a donation of goods. Review important legal papers and obtain advice from skilled professionals. Refrain from impulse spending and get estimates before spending on repairs, household goods, and renovations. Make forgiveness part of this cycle. Stay mindful of conditions that effect people in global and local arenas. **Uranus in Gemini moves in retrograde motion covering 5-4 degrees of the sign this month. It most affects Geminis born May 27** by disrupting the flow of situations that affect tolerance and irritate focus. Strengthen your stamina by concentrating on areas where you are looking for answers. That 7-year ride through Gemini has plenty of time to alert you to an abundance of demands that require your attention. The source of irritation depends on the specific areas (houses) where transiting Uranus falls in your chart. Uranus went retrograde on September 10, 2026, EDT and moves direct on February 8, 2027, EST. Other signs aggravated by Uranus include Pisces, Sagittarius, Virgo, and Gemini. The zodiac's members who benefit from this transit are fire and air signs Aries, Gemini, Leo, and Aquarius. Transiting Uranus makes favorable aspects all month. Enjoy positive feedback on your work output, spend extra cash or bonus money wisely and save what you can, buy a winning lottery ticket, find the perfect deal on a new vehicle, or procure a household acquisition that has been on your wish list.

Neptune is in Aries this year as of January 26, 2026. This insightful planet went retrograde on July 7 and will turn direct on December 12 at 1 degree of Aries and will occupy 1-6 degrees of Aries through July 9 when it starts another retrograde cycle and will travel backward in slow motion at 27-28 degrees through the end of this 2027 cycle. Neptune will most affect Aries and affects individuals born March 26-27, 2027. Look at your chart - wherever you have these Aries degrees denotes the area of your life that could use a big breakthrough and a thorough analysis of confusing conditions or an interpretation of messages. Solve perplexing problems. Saturn in Aries and Pluto in Aquarius travel in favorable aspect to assist you with important work or home conditions including relationships. Those with fire or air sign ascendants around 27-28 degrees or the Sun at 26-27 degrees

(Aries, Leo, Sagittarius, Gemini, Libra, Aquarius) experience strong subconscious vibes while processing information through dreams, psychic insight, vivid memory recall and intuition. If your rising sign is in earth or water, the aspects can be harsh depending on aspects to other planets in your chart. People on the planet need compassion now, especially those who have lost loved ones, homes, experienced extreme weather conditions, health setbacks, loss of assets, and the will to live. Contact experts who can provide emotional support or assistance with financial burdens. Share what you can by donating to worthy causes; a little compassion goes a long way when everyone cares. In these challenging times, supplement food banks so those without funds can eat nutritious food. Be thankful for the generous people in your life who show concern in numerous ways. Maintain excellent health records, get yearly check-ups and schedule a flu shot and COVID-19 booster this season. Ask your medical providers for assistance. Find joyful moments in everyday events, share a laugh and participate in entertainment via films, plays, comedy, and other art forms like music, crafting, and sewing. Solve jigsaw puzzles or play word games, sharpen skills by playing Mah-Jong, and read books while the transit passes. Enjoy successes and acknowledge self-worth.

Pluto is now in Aquarius as of March 2023 through January 19, 2044. Currently Pluto is retrograde in Aquarius and will move direct in motion in Aquarius at this time on October 15 at 10:41 PM EDT on the Suns of Aquarians born January 23-24 while it stations at 3 degrees of the sign. Members of other signs should look at any planets, points, or houses where you have 3 degrees of Aquarius, especially those who have Aries, Libra or Aquarius at this degree. The closer the planet is to a conjunction (around the same degree) or the opposition or square, the greater the importance. If you have been struggling with hard times, illness-related burdens, financial shortfalls, relationship discord and losses, a reversal in direction may occur in a key house during October. Someone you know may let the cat out of the bag by revealing secret matters that expose karmic conditions or old angst. The most vulnerable time is October 12-18, so keep a low profile to minimize tension. Identify and dissolve your personal anger issues. On a global level, keep your eyes centered on world conflict where politics generate contradictions in ideology by upsetting the status quo and distorting the truth. Election-related manipulation may produce hostile activity and plans that work against the greater good for humanity. Stay safe and live in harmony, embracing prosperity and honest alliances. Pay attention to physical fitness and make sure medical checkups reflect a clean bill of health as you welcome autumn and adapt to your seasonal routines. Embrace the deeply transformative benefits of transiting Pluto. If you change your attitude and eliminate fear, you will change the quality of your life. In this Sun in Libra report **Chiron, The Wounded Healer, is retrograde in Aries at 29 degrees throughout on April 19-20 who have deep concerns about revelations that surface suddenly. These disruptions affect mental and physical healing while they are in the process of eliminating old fears. Enjoy the gift of** Inner strength, a freeing blessing that comes to you in abundance once you decide to release pain and embrace the positive energy that attracts greater clarity to your life. Examine current reality before making sudden changes. Embrace unfolding plans while simultaneously seeking counsel and heading for compatible new turf. Stay calm and watch those perceived setbacks crumble. No need to hide behind pillars. Fear dissolves before your eyes and no longer holds you back. Celebrate the path that makes you whole. Schedule time with your astrologer to identify strategic insight and favorable timing for desired plans.

READERS' CORNER

Readers made several comments about last month's problem in the Virgo newsletter involving a couple who were moving to another state due to the husband's promotion and considerable raise. Shortly before the move was to take place, the wife bailed out of the move saying she did not really want to move and had not yet looked for a new job but would do so in 2027. She refused to move now and wanted to stay in the New York condo the couple had purchased and expected them to foot the bill for living in two locations, a very expensive situation. Readers feel the couple has a shaky relationship and its stability is questionable. Please comment on this month's question regarding the importance of Venus in a natal chart. **Thank you for your input.**

Q. Venus aspects are prominent in my chart right now. I am a Libra born October 22 and would like to know more about the role Venus plays in my chart. You told me it is my sign's ruling planet. I always felt that Venus affects my love life but the more I read the more I've learned that Venus affects men as well. How so? Does it matter whether a person is gay or straight? How does Venus influence my love life? Thank you for shedding light on this planet.

A. Venus rules two signs of the Zodiac, Taurus and Libra. Venus is a very personal inner planet located in fairly close proximity to the Sun and can never be located more than 76 degrees from your Sun in any direction. You were born with the Sun at the very last degree of Libra. Typically, a person born under Libra will have Venus in Virgo, Libra, or Scorpio yet there may be exceptions when Venus has been retrograde for a long time while in the year of your birth. Venus represents the women in a man's (or partner's) life, the type of woman he (she) prefers just as Mars has that honor in a woman's chart (or partner's) showing the kind of qualities in a man (or partner) that triggers the love attraction. It does not matter whether you are heterosexual, or LGBTQ. You were born with Venus in Libra on your sun, an aspect that gives you very striking looks and often an engaging personality. If Venus comes to your Ascendant, love comes into your life and could strongly change the nature of relationships that you thought were solid fixtures when you find yourself falling in love with a new person who has entered your life. **The transits of Venus will make temporary contact** with your Sun at some time every year - not always the conjunction unless Venus is in Libra but some other aspect that highlights Venusian activity. Venus travels quickly so you can have a few days here and there several times a year when Venus strongly makes a connection and you experience: love, attention, meet new people, go on dates, enjoy art museums or shows, shop for jewelry, reap financial benefits, buy new clothing, enjoy music and plays, indulge in a fancy meal or shop for luxury items to name a few related topics. **Progressed Venus creates the more permanent or dramatic impact** in your chart. We mostly associate them with more positive conditions yet there are exceptions. You don't always have to wait until Venus progresses directly to one of your planets - you may feel it several months before or after the aspect occurs and it all **depends on where Venus was at your birth**. Have your astrologer check for you and also locate the house and planet that progressed Venus will affect. **If Venus was in the sign before or the same sign as your Sun**, you are likely to have progressed Venus reach your Sun at some point in your life. When that occurs, you have about a year of opportunity for romance, love, the prospect of marriage, financial gain and success in your career field. If Venus approaches your Sun from a harsh position such as a square, inconjunct, or opposition, relationship issues come up, you find it hard to find satisfaction in emotional relationships, you

experience financial setbacks, or you feel stifled professionally. **Progressed Venus in positive aspect to your natal Moon** could bring strong indications of intimacy, warmth, and happiness; in harsh aspect it leads to difficulties with women, challenging connections to bosses or mother; and imbalance in love relationships. You can be shot with Cupid's arrow when progressed **Venus positively aspects Mars**; individuals often set the date and marry or bond; with harsh aspects there can be a parting of ways after intense conflict. When progressed **Venus moves to Jupiter favorably**, your wealth and resources grow, friendships bloom, and travel falls into place; in harsh aspect you experience wasted time and money or an inflated ego. **When a positively placed progressed Venus is in aspect to serious Saturn**, relationships grow in commitment and understanding; in harsh aspect, the strain creates incompatibility in love, life, and the subject of money. **When progressed Venus reaches Uranus** you either fall in love suddenly or throw someone out of your life. At any rate a lot of new people enter or leave your life. **Progressed Venus moving to Neptune** awakens spirituality and compassion; in harsh aspect it makes you oblivious to life's problems or creates opportunities to use poor judgment in solving them, or you ignore problems altogether. Progressed Venus to Pluto is generally a challenge because Pluto calls for the elimination of something that no longer fits in one's life; sometimes it is a loss of a life or loved one (sometimes through estrangement or love gone bad); clutter and disorganization that you may not want to address; disappointment over an expectation that did not materialize or if conjunct it can also mean rejuvenating a relationship, increasing the amount in your checkbook, or an attitude about life. Progressed Venus is going to land on your natal Saturn in fall of 2026, so your love life will take on a new direction. Be sure to contact me for details as the progression unfolds.
